PRICE TWO CENTS.

THIRTY-TWO ARE INDICTED BY THE DYNAMITE JURY

Federal Grand Jury Reports Thirty-two True Bills with Names Kept Secret This P. M.

CONSPIRACY IS MAIN CHARGE

Plot to Transport Explosives on Passenger Trains and Concealment of Felony Charged

ARRESTS ARE EXPECTED SOON

Secret Service Operatives and Detectives Are After Men Wanted for Complicity in the Plot

INDIANAPOLIS, Feb. 6.—The legal arm of the United States government today closed in on the reputed "inner circle" of the alleged dynamite conspiracy. Thirty-two indictments were returned here by the federal grand jury which has been investigating the nation-wide destruction of property. More than forty men are said to be implicated, due to the grouping of individuals in some of the indictments.

Conspiracy Charged
Conspiracy to violate the United States laws by transporting explosives on passenger trains engaged in interstate commerce and concealment of the knowledge of a felony from the proper authorities are the chief charges against the most of the indicted men. Several individuals are also accused of personally engaging in the unlawful transportation of dynamite. No names will be given out by the government until arrests are made. All are said to be labor leaders who are accused by the federal authorities of attempted intimidations in connection with dynamite outrages.

On Trail of Men
United States secret service operatives and William J. Burns' detectives are taking immediate steps to arrest the individuals named in the indictments. Practically all of the implicated men are said to have been under surveillance ever since the federal grand jury commenced its investigation here on December 14, 1911.

From the standpoint of the number of men alleged to be implicated in the conspiracy, the breadth of the territory covered by the residence of these men and their reputed operations, government officials assert that the cases are the most notable in the criminal annals of the United States.

GENERAL KING TO INSTRUCT

General Charles King will arrive here tonight from Milwaukee for the purpose of instructing commissioned and non-commissioned officers of company B in preparation for the annual inspection of the company, which will be held under the supervision of General Boardman soon.

Captain Fowler has ordered all of the officers of company B to be present tonight for the purpose of hearing the instructions, and all of the members of company B will also be present.

Invitations have been extended to all the members of company M to be present, and it is thought that a large number will take advantage of the opportunity.

CAHAK FUNERAL HELD TOMORROW

The funeral of Mrs. Eva Cahak, 1523 South Seventh street, who died of pneumonia Sunday afternoon, will be held from the residence tomorrow morning at 8:30 o'clock and from the St. Wenceslaus church at 9 o'clock, with Rev. X. Till officiating at the services. Interment will be made in the Catholic cemetery.

KIMMEL 'CASE AGAIN

THIRD HEARING OF FAMOUS IDENTITY CASE NOW ON AT ST. LOUIS; MOTHER TO TESTIFY

ST. LOUIS, Mo., Feb. 6.—That A. J. White, who claims to be the long missing George A. Kimmel, is in St. Louis and may be called to testify in the suit against a New York Life Insurance company, through which persons holding policies on Kimmel's life are seeking to secure payment, was the report here today. The trial which opened today in the federal court here is the third hearing of the now famous case. Mrs. Estelle Kimmel, of Niles, Mich., mother of Mr. George A. Kimmel, is here and will testify positively that the man now representing himself as Kimmel is not her son.

Won't Testify Against Lover; Gets Six Months

CHICAGO, Feb. 6.—Six months in jail for contempt of court, together with a fine of \$1,700, the full amount of money it is alleged was stolen from her, is the penalty imposed upon Hazel Hogan today by Judge Lockwood Honore for her offense of silence. The young woman who has been under arrest since early in December for contempt, has consistently refused to testify against Dr. Irvine Sissinger and four others charged with securing her money through a "fake" robbery. The woman is engaged to marry Sissinger and declares she would much rather be in prison herself than send him there.

HIGBEE DEMANDS SOME EVIDENCE

Circuit Judge Sends Answer to Socialists' Charge in Regard to Jurors

CALLS THE INCIDENT CLOSED

Says Matter Is Settled Unless Evidence Shall Be Brought in Support of Statements

In answer to the charges made by the social democratic party of La Crosse to the effect that the jury of the circuit court was illegally drawn, Judge E. C. Higbee today declared in a communication to the secretary of that party, that the committee had shown negligence in not taking notice of clauses accompanying certain names, which clearly showed that these parties were not eligible for the last jury.

He also took occasion to criticize their use of the word "peers" as used in their resolution and declared that he would take no further notice of their demands or resolutions unless they were accompanied by some evidence tending to show that the jury commissioners had shown partiality in selecting jurors.

The letter in full is as follows:

Letter to Socialists

Mr. John Bates, Jr., Secretary, Branch No. 1, Social Democratic Party, La Crosse, Wisconsin.

Dear Sir:

Yours of the 21st ult. enclosing resolution received. In regard to the charge that there are more than 100 names on the jury list, your committee probably overlooked the notations opposite certain names on list such as "removed from state," "excused because of defective hearing," etc., which indicates that these names have been taken from the box, but further than this, it is quite likely they overlooked the provisions of section 2533e R. S., which exempts for one year any person who has served as a juror for one term, and as we have three terms of court a year in this county there should be at all times 108 names on the list that are not in the box. So you perceive that your conclusions that the last jury was illegally drawn was reached, as I am afraid were some of your other conclusions, without sufficient consideration.

I am not sure that I grasp exactly the idea you have in mind when you make use of the term "a jury of peers." Webster defines "peer" to mean "an equal; one of the same rank, or an equal in excellence or endowments." You surely can not intend to imply that a working man is not the equal of a business man, or that a business man is not the equal of a working man. For I am sure that the rank and file of your members will agree with me that equality depends on matters entirely aside from such considerations.

Judgment by Peers
The phrase which you use had its origin at the time when class distinctions were recognized and protected by law. Thus, by article 21 of Magna Charta, it was provided that: "Earls and barons shall not be amerced, but by their peers, and after the degree of the offense." Article 39 provides, "No freeman shall be taken or imprisoned, or disseised, or outlawed, or banished, or in any ways destroyed, nor will we pass upon him nor will we send upon him unless by the lawful judgment of his peers, or by the law of the land." The fundamental principles of our government forbid such distinctions, the declaration of independence declares that "All men are created equal," and it seems strange to my mind that men who earn their living by manual labor should wish to revive such distinctions. In this country a jury of "peers" is a jury of American citizens, possessing the necessary qualifications as to character, education, etc., as provided by law.

If jury commissioners were to attempt to apportion jurors according to supposed class distinction I consider it a gross violation of the constitution. (Continued on Page 6, col. 4)

WITHDRAWAL OF LA FOLLETTE IS WISE---PINCHOT

Says His Breakdown would Cause Defeat of Progressive Policies if He Does Not Stop

CALLS T. R. SECOND CHOICE

Declares that Progressives Will Line Up Behind the 1 Colonel if La Follette Quits Race

THE ONLY MEANS OF UNITY

Amos Pinchot Thinks that La Follette's Withdrawal is Only Way to Unite Progressives

NEW YORK, Feb. 6.—Amos Pinchot, one of the most active of the republican progressives, brother of Gifford Pinchot and one of the men who has been the welding uniting the extreme progressives of the La Follette type and the less radical Roosevelt supporters, assuming that La Follette has actually ceased to be a candidate, prepared for the United Press today a statement in which he declared withdrawal of La Follette as a presidential candidate, resulted from the fact that, with the senator's health broken, and his ability as a campaigner weakened, not only La Follette but the principles for which he stood, were threatened with defeat, especially in view of the nation-wide clamor for the nomination of Theodore Roosevelt.

The Pinchot statement follows in part: "When last year a small group of progressives met at Washington to discuss placing a presidential candidate in the field, we had two definite ends in view, to bind the progressives together as an effective fighting force and to prevent the nomination for renomination of a reactionary candidate for the presidency. On account of his character and his great record of useful service Senator La Follette was chosen to be the candidate.

"His withdrawal from the race simply means that the progressives realize that owing to the growing demand for Roosevelt, and owing to the senator's health, La Follette cannot himself accomplish the purpose which has at all times meant more to him than his individual success. With La Follette out of the race, his followers are free to get behind Col. Roosevelt and continue the old fight with another leader.

Will Unite Progressives
"It seems entirely clear to me that Senator La Follette's withdrawal was the only sure means of uniting all the progressives, or insuring the nomination of some progressive and of making it possible in 1912 to elect the average republican voter to cast a ballot in his own interest and in the interest of the political and industrial bosses."

Ohio For Roosevelt
COLUMBUS, Ohio, Feb. 6.—With a definite decision reached to drop the La Follette campaign in Ohio, the progressive republican league of officers today began active preparations for taking action and pushing candidacy of Theodore Roosevelt.

Chairman John D. Fackler of the progressive league, said a meeting of La Follette and Roosevelt men would be called in Columbus later in the week to decide on a course of action. Walter F. Brown of Toledo, chairman of the republican state central committee, and James H. Garfield, of Cleveland, will be in the conference.

SPIRITUAL EMPEROR

IN ORDER TO SAVE PU YI FROM DISGRACE OF ABDICATING HE IS TO KEEP THRONE SPIRITUALLY

SHANGHAI, Feb. 6.—In order to prevent the necessity of the emperor undergoing the humiliation of abdication it is believed today that he may continue to be the spiritual head of China, while the government is to be carried along republican lines. His situation promises to spare the imperial clan's feelings but it also augurs trouble for the country. Well informed Chinese believe that there will be frequent clashes between the government and the "spiritual throne," keeping the people in a state of unrest. Much opposition developed to the movement here and a movement was started today to persuade the republican leaders to force absolute abdication.

President Sun Yat Sen and his cabinet, however, were reported to believe they had taken the easiest way out of the difficulty and it was regarded as likely that they would stand by their bargain.

Cooking Schools Are Needed Here

"A school of cooking is one of the greatest needs of this city and if I had the power one would be founded for the benefit of the unemployed women," said Judge Leonard Kleeber, superintendent of the free employment bureau today. "There is a great demand for cooks," he continued, "and nine out of ten of the women who apply for jobs are unable to do the work. It seems too bad to, because the wages that are paid good cooks are high. Every two or three days I get a call from some hotel or restaurant offering to pay from \$40 up. Some of the calls come from other parts of the state and I am unable to fill the demand. It seems strange that the girls who apply for jobs are unable to do the work that was considered part of the training of their mothers. The only way that I can see out of the difficulty is to found a cooking school. I should think that a good cooking school would be a paying proposition."

ALLEGED EVIDENCE WAS DESTROYED

Government Files Petition for Injunction Restraining Steel Trust from Destroying Papers

TRUNKFUL IS ALREADY GONE

Charge that Great Damage Has Been Done to Case by Destruction of Records

WASHINGTON, Feb. 6.—Charging that Vice President Frank Baackes and other officers of the American Steel and Wire company have deliberately destroyed a trunkful of documents tending to support the government's case against the steel trust of which the steel and wire company is a subsidiary, the department of justice today filed with the New Jersey court a petition for an injunction to prevent further destruction of papers important to the government's case. The petition alleges that Baackes helped to destroy correspondence which passed between himself and Edwin Jackson, supervisor of the steel pool. These, the government alleges, show J. W. Farrell, at that time president of the steel and wire company, now head of the United States Steel corporation, had cognizance of the "pooling and bidding" arrangements of the trust.

Great Harm Done
The destruction of the trunkful of papers has already done the government's case against the trust irreparable injury, according to the petition. The papers destroyed had been examined by the grand jury but were returned June 29, 1911, to the corporation, on the promise of Charles MacVeagh, general solicitor of the trust, that they would be available to the government at any time.

On January 26, Colton applied personally to R. W. Lindabury, counsel for the trust, for an examination of the papers. Another application was made on the 29th. The next day, Raynal C. Bolling, assistant general counsel of the steel trust, wrote that the trunk had probably been returned to the steel and wire company. On the 31st, Bolling said the papers had been destroyed.

Colton then wrote demanding that no papers would be destroyed, but while Bolling has made no formal reply, he told Colton verbally, according to the petition, "that he would do what he could" to prevent it.

SOCIALISTS HOLD MEETING TONIGHT

Professor Denoyer of the normal school will open a series of lectures tonight, when he addresses the social democrats of La Crosse at Lienlokken hall. Following the address of Mr. Denoyer, a business session will be held and it is probable that further steps will be taken in the matter of their demand for a jury commission investigation.

STRIKE LALLED OFF

NEW YORK, Feb. 6.—Because their treasury was insufficient and they were warned by the American Federation officials not to strike without a final attempt to secure higher wages and reform in working conditions, the executive committee of the shirt waist makers' union have voted not to order the strike of dress and shirtwaist makers planned to begin today.

DAHL FIXES FENCES

MADISON, Wis., Feb. 6.—(Special.)—State Treasurer A. H. Dahl is taking account of his political stock in the Seventh Congressional district this week. He is at his home in Westby, Vernon county, and will confer with those of his supporters who are most active in looking after his fences while he is busy with state house duties.

SENATOR OWEN TO BE A CANDIDATE

Maiden Rock Man Is Expected to Seek Nomination for Attorney General

IS URGED TO MAKE RUN

Progressive Leaders Assure Him of Support; Good Record as a Legislator

MADISON, Wis., Feb. 6.—(Special.)—State Senator Walter C. Owen of Maiden Rock, Pierce county, is expected soon to make formal announcement of his candidacy for attorney general. Support has been assured him by leading progressive republicans, and while in Madison last week he was urged by party leaders to make the run, Attorney General L. H. Bancroft has already indicated that he will be a candidate for renomination.

Senator Owen is best known in legislative circles for his advocacy of banking and insurance legislation. In 1905 and 1907 he led the senate fight for the passage of measures recommended by a special committee following a notable inquiry. In 1909 he was chairman of the special joint committee on banking which worked between sessions and made recommendations to the 1911 legislature. The committee's bills were passed with few changes. Senator Owen taking command of the fight for their adoption in the upper house.

In the last session Senator Owen took an active part in the work of reorganizing the upper house committees into six compact bodies with large membership. He himself was chairman of the corporations committee and of the special committee on banking. He also was a member of the committee on legislative procedure.

Senator Owen was born on a Pierce county farm in 1858. He was graduated with the University of Wisconsin law class in 1891, practiced until 1898 in Superior, and then moved to Maiden Rock. He was first elected to the state senate in 1904.

BATHTUB TRUST IS ON TRIAL

DETROIT, Mich., Feb. 6.—With sixteen of the twenty-nine corporations originally indicted as the so-called bathtub trust and five of the thirty-three individual defendants having already dropped their defense by pleas of nolle contendere, the much discussed trust case came to trial today before Judge Angell in the United States district court. The government attorneys assert that a number of the other corporations and men indicted will probably withdraw their pleas of not guilty and enter a nolle contendere plea some time today.

SOCIALISTS FAVOR WOMAN SUFFRAGE

That the social democratic party of La Crosse will doubtlessly adopt resolutions supporting equal suffrage, is the declaration of Joseph Vrchota, president of the local branch of that party, today.

Mr. Vrchota declares that the social democratic platform contains a clause which puts the party on record as favoring woman suffrage.

Many predict that the socialists will make a fight in co-operation with the Equal Suffrage society of La Crosse in an attempt to carry the referendum vote on this question at the fall election.

WON'T TAKE STAND

MRS. SNEAD REFUSES TO TAKE STAND EITHER FOR OR AGAINST HER HUSBAND

FORT WORTH, Texas, Feb. 6.—"The woman in the case," Mrs. Lena Snead, wife of J. B. Snead, now on trial for the murder of Captain A. G. Boyce, and whose elopement with Boyce's son led to the tangle and death which must be adjusted by the courts, suddenly appeared in Fort Worth today.

It is known that Attorney McLean and others representing Snead, held several long conferences with her today in an effort to induce her to take the stand and aid in saving her husband from the gallows.

Mrs. Snead, however, was defiant. Counseled first by attorneys for the defense, these men fighting for the life of her husband, said she told them she did not love Snead. With the same breath she renounced her love for young Boyce, with whom she eloped, but continued to refuse to appear. To save Snead the pretty, jeweled brunette wife must incriminate herself; she must admit that she was a generous husband and to counsel she refused to agree to this program.

Mrs. Anna Martindale Alleges Land Condemned for Well System was Priced Too Low

MUST FIGHT IN COURT

Case Probably Will Be Settled at May Term of Circuit Court; Asks \$4,000 More

Going up! There have been various estimates of what the new well system will cost the city, and it is probable that many more will be made before the matter is definitely settled. A new factor has entered the case.

Anna H. Martindale, owner of the land on which it is proposed to build the new water plant, is not satisfied with the amount she was allowed for her land in the condemnation proceedings, as ordered by the state railroad commission.

She claims that the amount is several thousand dollars short of the real value of the land. She has filed an appeal with Judge Brindley and it is probable that the city will have to contest her claim at the May term of circuit court.

The appeal was filed in Judge Brindley's court January 29. Mrs. Martindale claims that she was allowed \$2,033 on one parcel of land and \$1,600 on another, and that she is entitled to \$1,965 more on the first and \$2,400 on the second, making a total of \$4,000 more than she would collect from the city.

Attorneys Morris & Hartwell have been employed by Mrs. Martindale and it is probable that City Attorney Schubert will represent the city when the case comes up for trial.

FIVE DIE WHEN CAR JUMPS TRACK

M'KEESPORT, Pa., Feb. 6.—Five persons were killed and nearly 25 injured in an accident on the Buena Vista division of the West Penn street railway line early today. A car got beyond control on the steep grade near the Youghiogheny Country clubhouse, about six miles above here. It jumped the track and ran over an embankment, crashed into a tree and was broken in pieces. Four of the dead were taken from under the car.

MAGGIORE BOY RETURNS

CHICAGO, Feb. 6.—Antonio Maggiore, the 15 year old boy for whom the police have been searching for ten days on the theory that he was the victim of a black hand kidnapping plot, was produced at the East Chicago Avenue police station by his relatives today. Members of the boy's family stated that he returned home early today, saying that he had been out trying to make some money. The boy told conflicting stories to the police.

RULERS GO TO CHURCH

LONDON, Feb. 6.—With most imposing state ceremony King George and Queen Mary attended a special service at St. Paul's cathedral today to give thanks for their safe return from India. Attended by a numerous suite and escorted by life guards, they drove from Buckingham palace in open carriages. Soldiers lined the entire route. Thousands thronged every point of vantage to get a glimpse of the returned travelers.

TURKEY REFUSES SETTLEMENT

CONSTANTINOPLE, Feb. 6.—Peace terms suggested by Russia in an effort to bring an end to the Turkish-Italian conflict in Tripoli, were rejected today by the government. Turkey believes that Italy is really more anxious to reach a settlement than she professes to be.

SEWER GAS KILLS

PHILADELPHIA, Pa., Feb. 5.—Gas that backed up through sewer connections killed five persons in the home of John Razall, a baker, early today. Five others living in an adjoining house were found unconscious and rushed to a hospital, where three of them are said to be in a critical condition.

SWIFT EXPERT TESTIFIES

CHICAGO, Feb. 6.—John M. Chaplin, expert figurer of the test cost department of Swift & Co., was a witness in the trial of the packers today. He outlined the methods in use by the Swift company regarding the figuring of costs and price margins.

ASKS STATEMENT OF T. R.

Wisconsin Senator will Not Enlist Under Roosevelt Unless He Declares Progressive Beliefs

WASHINGTON, Feb. 6.—The progressive republican situation cleared today, revealing Senator La Follette standing practically alone but refusing to accept the candidacy of Colonel Roosevelt as an expediency, though the strongest efforts of many of his closest friends and advisors were spent in an attempt to induce him to do so.

"I have been the standard bearer of principles, not of individuals; no possible change in circumstances can change the great issues for which I have fought and will continue to fight. I can enlist in the ranks of no man unless he adopts publicly, in binding terms, the true principles of progressive government by the people."

This statement summed up the answer given by La Follette to the leaders who pleaded with him to come out for Roosevelt. His refusal presents today's problem with which the progressive leaders are contending.

Want Bob to Meet T. R.

Several progressives joined today in an effort to bring about a meeting or an exchange of correspondence between Roosevelt and La Follette. In this manner they hoped to induce Roosevelt, irrespective of whether he is a candidate for the presidency, to make a declaration of principles, representing his attitude toward public affairs and marking the general lines along which his future actions may be expected to be directed. These leaders hoped that they would be able to convince La Follette that in fundamentals he and Roosevelt are on the same ground. They planned also to use the Roosevelt declaration as a basis for a fight against the rapidly rising Taft organization strength.

Unless some such solution is found it was made known positively today that Senator La Follette will go before the Chicago convention in opposition to Roosevelt and with whatever small support of loyal friends he may be able to hold, will fight to the end for his platform.

La Follette stood today with practically one big supporter—Governor Hiram W. Johnson of California, who is pledged to his support and who has told Roosevelt that he will stand by his pledge until released by La Follette personally, regardless of what the senator's fortunes may be.

WEATHER

For La Crosse and vicinity: Generally fair tonight and Wednesday; not much change in temperature.

For Wisconsin: Fair tonight and Wednesday; somewhat colder northwest portion tonight.

For Minnesota: Fair tonight and Wednesday; colder east portion tonight.

For Iowa: Fair tonight and Wednesday; colder extreme northwest portion tonight.

Light snow continues in the lower lake region and eastern states in connection with the depression that is moving off the north Atlantic coast and rain is falling in southern Florida. An area of low pressure is moving in on the north Pacific coast and another depression is central off the southern coast of Florida. Elsewhere the pressure is above normal. The temperature continues below freezing in the southern states almost to the gulf coast. It is at or slightly below zero from northern Nebraska through the Dakotas into the Canadian territory. The weather will continue generally fair in this section tonight and Wednesday without much change in temperature.

UNION OFFICIAL'S DESK IS OPENED

CHICAGO, Feb. 6.—W. S. Kramer, secretary of Blacksmiths' International union, reported today that the desk of President J. W. Kline of that organization was smashed open in the union's offices in the Monon building sometime between Saturday and Sunday afternoon and several papers bearing on the union's affairs taken.

President Kline is out of the city," said Kramer today. "And I have no idea what papers were extracted. The desk was smashed and all our papers were gone over. If the information these marauders wanted was here, they certainly got it."

Kline is at the head of the railroad systems federation which is conducting strikes on the Illinois

TO DIVERT RIVER TO STOP MEETING

BELFAST, Feb. 6.—Black Friars river may be called into play to prevent Winston Churchill, first lord of the admiralty, and other liberal leaders, from holding their proposed home rule demonstration here on Thursday.

It became known late today that the Ulster leaders had made extensive plans for diverting the course of the river on Wednesday night to flood Celtic park in which a great tent is being erected for the meeting.

BALMER SPEAKS ON EDUCATION

Agriculture School Principal Delivers Address Before Cheesemakers' Convention

BENEFIT OF FARM SCHOOL

Tells of Work of the State Schools in Preparing Citizens for Good Service

Declaring that "it is as important to live under a good roof as under good laws" and that "good bread is as important as good theology," Frank E. Balmer, principle of the La Crosse County Agricultural school made an eloquent plea in the behalf of the "farm school" in a speech before the Southwestern Cheesemakers' and Dairymen's association last Friday during the annual convention last Friday at Monroe, Wis.

He pointed out the necessity of education in the every day things in life and deplored the tendency of the modern man to seek only the "higher education." He declared that the best education is that which best fits the pupil for the best service he can render. His speech is given in part as follows:

"One of the great industrial leaders in this country states that 'The farm is the basis of all industry, but for many years this country has made the mistake of unduly assisting manufacture, commerce and other activities that center in cities, at the expense of the farm.'

"We have reached the time in our public educational system when the trend is preparation for the professions only. The problem is to reach the masses of people and to do so with information in and training for the things with which they are to deal.

"The popular distinction between industrial education and higher education has no real existence. There is no higher education than that furnished by the professional schools—law, medical, theological. But training for law, medicine, and the ministry is industrial education as truly as training for carpentering, blacksmithing or farming. The first three are industries no less than the second three.

"And carpentering, blacksmithing and farming are just as 'high' as law, medicine or the ministry. It is as important to live under a good roof as to live under good laws. Good bread is as important as good theology; bad cooking is as provocative of wickedness as bad preaching.

Life is for Service
"Life is for service; education is for life. That is the best education which best fits the pupil for the best service he can render. Which is better—to be a blacksmith or a preacher? That depends; it is better to pound an anvil and make a good horseshoe than to pound a pulpit and make a poor sermon.

"But manual training is not merely industrial training. It is not merely training for self-support, it is also training for self-culture.

"Manual training is moral training. The boy will learn that he is under law more quickly in a workshop than in a school room. Industry, order, carefulness, accuracy, obedience, conscientiousness are taught at the forge and the work bench more easily than at the desk. Moral lessons are better taught by doing than by reading, by tools than by text books.

"But this work for better farming and better living on the farm is not stopping with the schools. It is going

PUTS AN END TO STOMACH MISERY

Indigestion, Gas, Heartburn and Dyspepsia go and you feel fine in five minutes

Every family here ought to keep some Diapepsin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards. If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at your drug store, waiting for you.

These large 50-cent cases of Pape's Diapepsin contain more than sufficient to cure any case of Dyspepsia, Indigestion or any other Stomach trouble.

to the farm and the farmer himself. You are all familiar with the work of farmers' institutes, farmers' course, short courses and farmers' schools such as are being conducted in this and other states.

"The farm school offers a center in the county, community or section of the state from which all work of such character as just mentioned may grow from.

"Many localities of the country have consolidated their rural schools and are effectively teaching agricultural and home making subjects to the strictly rural pupils.

Wisconsin Plan New

"The Wisconsin idea represents somewhat of a departure from those in practice in other states in that the unit has been the county. A controlling idea in the organization of these schools is to give a practical education to the men and young women who do not care to or cannot take an extensive course, and to give them training that they can make immediate use of upon returning to the farm, the shop and the home.

"I feel that I can best describe the scope of work offered students at these Wisconsin schools by outlining briefly the work offered at the La Crosse County School of Agriculture.

As before stated the course of study covers two years of work, each year being divided into three terms of eleven weeks each, a fall, a winter and a spring term.

"A list of subjects taught the junior boys is study of farm animals, farm arithmetic, physics, mechanical drawing, English, wood shop, blacksmithing, military drill, civics, farm botany, dairying, physical training, forge work including pipe fitting, belt lacing and rope splicing.

"The boys of the senior class according to the present course have animal breeding, botany, chemistry, study of soils, English, military drill and physical training, feeding farm animals, horticulture, farm management, farm crops, farm machinery including steam and gasoline engineering.

Instructed in Cooking
"The junior girls receive instruction in cooking, study of foods, sewing and garment making, study of textiles, chemistry of the home, English, arithmetic, physical culture, laundrying, civics, vegetable gardening and physical training.

"The senior girls' work includes advanced cooking, dressmaking, household management, art, needlework, cooking and serving, dietetics, household art, home nursing, invalid cookery, millinery, physical culture, English, botany, floriculture and carpentry.

"There has been maintained each year at this school a farmers' course and home makers' conference of four days' length which was attended

Plumbing in the Jefferson School in Poor Condition; Truant Officer Resigns

In accordance with a resolution introduced before the board of education last night it was decided to give the committee on grounds and buildings authority to install a water meter at the Jefferson school and in such other schools as they may deem necessary at a cost not to exceed \$250. This action was decided upon after it had been shown that the plumbing in the Jefferson school was in poor condition and that a meter should be placed there.

Meters in the Washington, Lincoln and Jefferson schools were advocated, but it was declared that the plumbing in the last named building was in the poorest condition.

Upon a recommendation by L. F. Easton it was voted that the fireman at the high school should also act in the capacity of night watchman during the winter months at least an that he should punch a clock, which is to be placed in the building for that purpose, at certain stated intervals.

Berry Resigns

C. H. Berry, truant officer for the public schools, handed in his resignation which is to take effect on January 31, 1912. Poor health was the cause assigned by Mr. Berry was his resignation, which was accepted. The committee on teachers was given authority to employ another truant officer at a salary not to exceed \$30 per month.

The committee on schools and teachers was instructed to submit the names of two employers and two employees who are to constitute the industrial school board whose duty it shall be to see that all children under the age limit of sixteen years attend school as provided for in the laws. J. B. Funke was suggested as an employer to act as a member of this board.

A report on the matter of electric light and power rates for the city schools will be made at the next meeting by the committee on grounds and buildings who will communicate with the light company in regard to this question.

The board voted the two janitors in the high school building an increase in salary of \$2.50 per month thereby making their monthly pay \$52.50.

The committee on supplies will investigate the matter of purchasing a stereopticon lantern for use in the study of geography in the city schools.

Miss Nellie Robinson and Miss Griswold were engaged by the board to act as teachers in the schools. Miss Irene Lienlokken was given the position of clerk at the high school.

LUMBER KING'S GRANDSON SHOT

MUSCATINE, Iowa, Feb. 6.—

port, Hershey, postmaster at Fairport, and owner of a general store, was murdered in his place of business while watching for burglars between 4:30 and 5 o'clock yesterday morning. The burglars escaped. He was a grandson of Benjamin Hershey, the millionaire lumber king of Muscatine, who left an estate of forty million dollars.

Young Hershey was a graduate of Harvard and of the Cooper institute, and had studied for five years in Paris.

"Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets.

After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says:

"Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures.

Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money.

Musterole Means Mustard Oil—

Combined with other simples used in home medicine.

It is a clean, pure, white ointment that does all the work of the good old-fashioned mustard plaster—but does it better and without the blister.

MUSTEROLE GIVES ALMOST INSTANT RELIEF FROM ACES, PAINS AND SORENESS, AND NOT A BLISTER REMAINS.

Instead, it has a delicious, comforting, soothing effect.

You simply rub **MUSTEROLE** on briskly and the pain is gone!

MUSTEROLE is so penetrating that it enters the pores at once, stops the sharp twinges—brings ease and complete relief—and breaks up the congestion.

Mustard has been a family remedy for centuries.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alternative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (*Collinsonia canadensis*), Bloodroot (*Sanguinaria canadensis*), Golden Seal root (*Hydrastis canadensis*), Queen's root (*Silene sylvatica*), Black Cherry bark (*Prunus virginiana*), Nettle root (*Podophyllum peltatum*), with triple refined glycerine, prepared in a scientific laboratory in a way that no drugist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "just as good" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

ESCH SPENT \$82.80

MADISON, Wis., Feb. 6.—Congressman John J. Esch filed his first account of expenditures in his campaign for renomination in the Seventh district Saturday, showing a total of \$82.80. Of this amount \$62.90 is for expenses of a round trip from Washington to La Crosse and return.

Weak and disheveled, he tottered ashore at Colon and stood swaying on the dock. The steamer train was drawn alongside. His eye caught the "P. R. R." of the Panama Railroad. "Good heavens!" he exclaimed, in a burst of soulful regret. "If I had only known that the 'Pennsylvania' ran down here."

FOR THE STOMACH

Here's an Offer You Should Not Overlook

Reall Dyspepsia Tablets remedy stomach troubles by aiding nature to supply the elements the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Reall Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that indigestion will not bother you.

We know that Reall Dyspepsia Tablets are what they will do. We guarantee them to relieve indigestion and dyspepsia. If they fail we will refund your money. Three sizes: 25 cents, 50 cents, and \$1.00. Remember, you can obtain Reall Remedies only at our store—The Reall Store, O. T. Erhart.

HOW THE REGULARS VIEW ANDERSON

The Progressive Newspaper League of the First Minnesota Congressional District, which by the way the Hon. Sydney Anderson says is about as progressive as a crawfish, is coming in for a good swatting by the reactionary republican papers of that territory.

Examples of the criticism which the regular republican publications are aiming at said progressive league for its resolutions condemning Mr. Anderson for "failing to take and hold his rightful position in the councils of the republican party, and for his neglect to fulfill his pre-election pledges," are afforded this week by the Preston Times and the Rushford Star-Republican.

These papers agree that Mr. Anderson was merely the instrument by which the "Progressive Republican Newspaper League" worked for the defeat of Mr. Tawney, and that he has "invariably voted with his progressive colleagues in congress."

The Star-Republican, published by G. L. Foss, a Tawney adherent, who supported Tawney until the primary and then came to the support of Anderson in a mild way, says that it "fails to see wherein Mr. Anderson has erred so grossly as to deserve the rebuke," that "it would be difficult for anyone to hold the 'rightful position' in the republican party for the reason that there are so many kinds of republicans, and that 'Anderson was elected as a progressive'." He has voted with the democrats in preference to voting with the old-line republicans, and who can say that is not consistent with his pre-election pledges?

Continuing, the Star-Republican says: "After denouncing Cannon, Aldrich, Dalzell and other republican leaders as enemies of the common people, how in thunder could he go down there to Washington and vote with them a few months later? We never expected Mr. Anderson to do that, and while we believe that the old republican guard are not always in the wrong, and that Anderson is not always in the right, we must admit that we believe he has done about what could be expected of him."

The Preston Times says, "The plea that Mr. Anderson has voted with his democratic colleagues and thus given offense seems to us but a flimsy excuse when we consider that he has invariably voted with his progressive colleagues in congress."

In the third paragraph of the resolutions, however, The Times finds a solution of the "complete change on the part of these progressive editors." The explanation, it says is the word "postoffice." Mr. Anderson, says this paper, has failed to deliver the postoffice goods in which the progressive publishers are deeply interested.

Perhaps this is true. The Times is Sam Langum's newspaper, and for many years Sam Langum was Jim Tawney's postmaster of the House of Representatives, so The Times ought to know all about what the postoffice means in the congressional game. Anyway, as both Mr. Langum and Mr. Foss agree, there is something mighty mysterious about this attack on Mr. Anderson, and we are willing, until some more plausible reason is assigned, to accept Mr. Langum's inspiration as sufficient unto the day. Not votes, but postoffices, are the important things in the life of a congressman.

FAIR BOARD TO MEET

MILWAUKEE, Wis., Feb. 6.—The annual meeting of the Wisconsin state fair board will be held in Madison on Tuesday. William McLaren and Francis A. Cannon, Milwaukee, members of the board, will attend. The presidency is said to be between Charles L. Hill of Rosendale and Oliver E. Rewey of Rewey. A contest over the secretaryship is probable. Secretary Rowland is said to be a candidate for re-election.

Knew the Odor
A friend of Justice Harlan, who was a rare Kentucky gentleman in every sense of the word, told this story: "Justice Harlan was traveling and he entered the smoking compartment of the Pullman to get a drink of water. As he lifted the glass he sniffed suspiciously. Turning to the three in the room he said: 'It seems to me that someone has been drinking liquor out of this glass.'"

"Yes—er—sir" stammered a little man in the corner. "I used the glass for that purpose."
"Raising his voice, the justice asked: 'Well, where did you hide the bottle?'"

Symptoms Are Warnings To Wise Men

The publication of the prescription of a famed physician would prove fruitless to hundreds of men if unable to recognize the necessity for its use. It is not the intention or desire of the writer to mislead or frighten by painting the horrors suffered by the prematurely aged, but rather is it the desire to state plain facts. The peculiar affliction which destroys ambition, organic strength, energy and hope is accompanied by some of the following symptoms, if not by all: Dull, sunken eyes; thinness (or abnormal fatness), cold extremities, backache, weakness in the spine, twitching, spots before the eyes, pains in back of head, headache, trembling, fatigue, shrinking of the skin, flabby flesh, impaired memory, sleeplessness, loss of appetite, constipation, kidney derangements and a general unpreparedness for emergencies of all sorts.

The right kind of medical treatment will effectually overcome such warning symptoms and restore normal conditions if persistently used for a few short weeks.

Any one can buy the ingredients and mix the medicines of this prescription at home as it contains no poisonous opiates whatever.

The instructions for mixing at home secretly so that no embarrassment may be felt, are as follows: First get three ounces of syrup sarsaparilla compound and one ounce compound fluid balm-wort; mix and let stand two hours. Then add one ounce compound essence cardiol and one ounce tincture cadomene compound (not cardamom), and mix all together. The directions are to take one teaspoonful after each meal and one when retiring, until bounding health and full strength are restored. Even a few weeks will witness most wonderful results.

conservCtion idled in various channels, and finally became anchored at jewels. Here the Major was at home, and he loved emeralds above all other stones. He proved to be an engaging old fellow, had circled the globe three or four times, and had had an adventure or two worth recounting. And when he incidentally mentioned his niece George wanted to shake his hand.

Would Mr. Jones join him with a peg to sleep on? Mr. Jones certainly would. And after a mutual health, George diplomatically excused himself, retired, buoyant and happy. How simple the affair had been! A fellow could do anything if only he set his mind to it. Tomorrow he would meet Fortune Chedsey, and may Beelzebub shrieve him if he could not manage to control his recalcitrant tongue.

As he passed out of sight, Major Callahan smiled. It was that old familiar smile which, charged with gentle mockery, we send after departing fools. It was plain that he needed another peg and gracefully wended his way down-stairs to the bar. Two men were already leaning against the friendly, inviting mahogany. There was a mug of champagne standing between their glasses. The Major ordered a temperate whisky and soda, drank it, frowned at the mug, paid the reckoning, and went back up-stairs again.

"Don't remember old friends, eh?" said the shorter of the two men, caressing his incriminated proboscis. "A smile wouldn't have hurt him any, do you think?"
"Shut up!" admonished Ryanne. "You know the orders; no recognition on the public floors."

"Why, I meant no harm," the other protested. He took a swallow of wine. "But, dash it! here I am, more'n four thousand miles from old Broadway, and still walking blind. When is the show to start?"

"Not so loud, old boy. You've got to have patience. You've had some good pickings for the past three months, in the smoke-rooms. That ought to soothe you."

"Well, it doesn't. Here I come from New York, three months ago, with a wad of money for you and a great game in sight. It takes a week to find you, and when I do... Well, you know. No sooner are you awake, than what? Off you go to Bagdad, on the wildest goose-chase a man ever heard of. And that leaves me with nothing to do and nobody to talk to. I could have cried yesterday when I got your letter saying you'd be in today."

"Well, I got it."

"The rug?"

"Yes. It was wild; but after what I'd been through I needed something wild to steady my nerves; some big danger, where I'd simply have to get together."

"And you got it?" There was frank wonder and admiration in the pursy gentleman's eyes. "All alone, and you got it? Honest?"

"Honest. They nearly had my hide, though."

"Where is it?"

"Sold."

"Who?"

"Perceval."

"Horace, you're a wonder, if here ever was one. Sold it to Perceval? You couldn't beat that in a thousand years. You're a great man."

"Praise for Sir Hubert."

"Who's he?"

"An authority on several matters."

"How much did he give you for it?"

"Tut, tut! It was all my own little jaunt, Wallace. I should hate

The Man Who Fails
Let them say when I shall rest,
Pillowed on the breast of Earth,
I was of the lowliest
And my work of little worth;
But let no one say I ne'er
Wished to know or learned to care.

Let them say that I was weak,
Commonest of common clay,
Filled with eagerness to speak,
Lacking anything to say;
But let no one say my soul
Urged me to no gleaming goal.

Let them say when I have ceased
Striving where the strong remain
That my talents were the least
And my efforts foolish, vain;
But let no one say that I
Did not have the heart to try.

Preferred Palatable Notes
Thomas W. Lawson at a dinner in Boston said of a far-famed financier: "He is all right at heart, but his outside is prickly, and you must handle him with great caution, as they handled the Tin Can gambler."

"A gambler of the Tin Can borrowed a sum from a money lender, and when the note fell due he said he could not settle."

"You must settle," shouted the money lender. "If you don't settle I'll—"

"But the gambler, taking a revolver from his boot, pointed it at the money lender and said:

"'Eat that note, or I'll let daylight through you!'"

"And the money lender crumpled the note into a ball and with a gulp swallowed the pulpy morsel."

"That dose saved your life," said

to lie to you about it."

"What about the stake I gave you?"

Ryanne made a sign of dealing cards.

"Threw it away on a lot of dubs, after all I've taught you?"

"Cards aren't my forte."

"There's a yellow streak in your hide, somewhere, Horace."

"There is, but it is the tiger's stripe, my friend. What I did with my money is my own business."

"Will she allow for that?"

"Would it matter one way or the other?"

"No, I don't suppose it would. Sometimes I think you're with us as a huge joke. You don't take the game serious enough."

He emptied his glass and tipped the bottle carefully. "You're out of your class, somehow."

"So?"

"Yes. You have always struck me as a man who was hunting trouble for one end."

"And that?" Ryanne seemed interested.

Wallace drew his finger across his throat. Ryanne looked him squarely in the eye and nodded affirmatively.

"I don't understand at all."

"You never will, Wallace, old chap. I am the prodigal son whose brother ate the fatted calf before he returned home. I had a letter today. She will be here tomorrow, sometime. You may have to go to Port Said, if my little plan doesn't mature."

"The Ludwig?"

"Yes."

"Say, what a Frau she would have made the right man!"

Ryanne did not answer, but glowered at his glass.

"The United Romance and Adventure Company," Wallace twirled his glass. "If you're a wonder she's a marvel. A Napoleon in petticoats! It does make a fellow grin when you look it all over. But this is going to be her Austerlitz or her Waterloo. And you really got that rug; and on top of that, you have sold it to George P. A. Jones! Here's—"

"Many happy returns," ironically.

They finished the bottle without further talk. There was no conviviality here. Both were fond of good wine, but the more they drank, the tighter grew their lips. Men who have been in the habit of guarding dangerous secrets become taciturn in their cups.

From time to time, fittingly, there appeared against one of the windows, just above the half-curtain, a lean, dark face which, in profile, resembled the kite—the hooked beak, the watchful, preying eyes. There were two hungers written upon that Arab face, food and revenge.

A Simple Way to Clear the Complexion

(The Mirror)

Thousands have attractive, regular features and are clever, bright and fascinating, but are handicapped by a muddy complexion. It has lately been discovered that old-fashioned coelected balsam is the most wonder-working application ever used for correcting this trouble. It can be had of any up-to-date druggist. An ounce and a half will completely restore the pink and white bloom of childhood by the very simple method of gradually and harmlessly flecking off the outer dead skin particles which conceal the fresh bloom underneath. Ordinary thermized jelly is another simple remedy which works wonders in removing wrinkles, double chin, hollows, etc. Get a small quantity at any up-to-date drug store; it will make the skin taut and firm, even after one or two applications.

For Chilblains, Frost-Bites And all Sore Feet

Many persons dread the approach of winter on account of chilblains and frostbites which cause a soreness and itching at times almost unbearable, frequently bringing on a nervous condition. To those afflicted the following treatment will be welcome information as it gives immediate relief and soon cures. "Dissolve two tablespoonsful of Calocide compound in a basin of warm water (not hot). Soak the feet in this for fifteen minutes. Repeat this for several nights until the trouble disappears."

The action of Calocide compound for all foot ailments is really remarkable. By its use corns and callouses can be peeled right off. Sweaty, smelly feet and tender, aching feet need but a few applications. Bunions get relief instantly. Any druggist has it in stock or will get it from his wholesale house. A twenty-five cent package is usually sufficient to put the worst feet in fine condition.

the gambler, in a mollified tone, and the next day he had a streak of luck and paid the money lender in full.

"The money lender was much pleased with his honesty, and when the gambler a few weeks later called and asked for a new loan he was readily accommodated."

"The gambler, having pocketed the new loan, sat down, dipped a pen in the ink and selected a sheet of paper, whereon to write the usual acknowledgment. But the money lender hastily interposed.

"Hold on, my friend," he said, and he ran to a cupboard.

"Wait a minute, my friend. Would you mind writing it on this soda cracker?"—Washington Star.

Her Rule With Husbands

Miss Kate Riverton Byles, one of the suffragist leaders of Colorado, said at a recent suffragist dinner in Cripple Creek:

"Opponents of woman's suffrage would have you believe that a vote turns a woman into a monster. Yet, when a young man, arriving at the age of 21, gets the vote, does he, or does he not, become a monster?"

"But to hear the anti-suffragists talk you'd think that every voting woman was like that lady, rich in her own right, to whom her husband said:

"My suspicions are at last confirmed. We part forever from this moment."

"But the guilty lady retorted haughtily:

"Not at all, sir. Not at all. It's my invariable rule to require a month's notice from every husband."

"See Here, My Man"

It was at the target practice of the local company of territorials, and one of the officers was suitably holding forth on the matter in hand.

Sauntering swaggeringly up to the latest recruit, he said:

"See here, my man, this thing is a rifle. Here is the barrel, there the stock. You slip the cartridge in here."

"Q" ENGINES ARE ROAD MONSTERS

New Moguls Will Handle
60,000 Tons on Any
Ordinary Road
or Grade

What is the limit of the capacity of a locomotive that can be built and satisfactorily used on the lines of the middle west railroads?

This is the question that has arisen in the minds of railroad men and engineers as the engine builders have turned out some new locomotives for one of the railroads and the question still remains unanswered. Now the Burlington is going to put the question up again by ordering new engines that promise to eclipse anything on wheels in this section of the country.

There was a time when the engineer on the Burlington who was pulling a thousand tons had all his engine could handle on the level or he had to double up over steep hills. Today the largest type of engine in use on the road will handle 40,000 tons of freight anywhere along the line with the exception of some steep grades, or getting out of a bad yard when a pusher engine is needed.

But the management of the Burlington is not yet satisfied and now has ordered five new engines that will do better than that. They are of a new type, will probably be fitted with automatic stokers to keep the fires, and it is expected that when they are tested out they will handle 60,000 tons anywhere on the road and over any ordinary grade.

In addition to being more powerful than any engine in use the special feature of these engines will be the automatic stoker. This machine it is reported has been tried out and found to be satisfactory and a labor saver.

Ask Your Doctor

You may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says.

**SNOW PLOW IS
CURIOSITY TO CROWD**

A 150 ton snow plough passed through the city today on its way to Cordova, Alaska, where it will be used by the Copper River Northwest railroad company in keeping the tracks free from snow.

The plough arrived in the city yesterday afternoon over the C. M. & St. P. railroad from Pennsylvania. Because of the fact that the company will not allow the plough to travel during the night it had to be kept in this city over night and could not resume its journey until this morning.

It came here with a special train consisting of fifteen cars which accompanies it on its way to Alaska.

The plough, which is the largest one ever seen in this vicinity, was the object of much attention while it was in the city. From here it will be taken to Seattle, Wash., on the C. M. & St. P. road and from that point it will be sent to Alaska by way of a boat.

It is thought that it will take several weeks for the plough to reach Seattle due to the fact that no traveling is done at night.

Almost Lost His Life

S. A. Stid, of Mason, Mich., will never forget his terrible exposure to a merciless storm. "It gave me a dreadful cold," he writes, "that caused severe pains in my chest, so it was hard for me to breathe. A neighbor gave me several doses of Dr. King's New Discovery which brought great relief. The doctor said I was on the verge of pneumonia, but to continue with the Discovery. I did so and two bottles completely cured me." Use only this quick, safe, reliable medicine for coughs, colds, or any throat or lung trouble. Price 50c and \$1.00. Trial bottle free. Guaranteed by O. T. Erhart.

PROGRESSIVE LEAGUE TICKETS ON SALE

Tickets for the Progressive League banquet which is to be held on February 15 are now being placed on sale and they can be procured at the City Book and Drug store and at Hebbard's Drug store. An interesting program has been arranged for by the league and it is expected that many people will attend the banquet. Preparations for a big meeting have been made.

MISS JULESBURG HAS PARTY

Miss Madia Julesburg, of 1326 Charles street, entertained a number of her friends Saturday evening in honor of her eleventh birthday. The evening was pleasantly spent in playing games and listening to music after which an excellent lunch was served at nine o'clock. Those present were Marcella Bice, Swain Skagen, Verna Rowe, Caroline Sark, Helen Burger, Enginay Skagen, Edna McClood, Esther Flinty, Thomas Sletten, George McClood, Errol Olson, Orville, Marie and Clemen Julesburg.

WOMAN ARRESTS INTOXICATED MAN

ST. PAUL, Minn., Feb. 6.—When Miss Mary Balfour, probation officer, went to the home of John Grelich, 58 Pennsylvania avenue, Saturday to see for herself how the family was getting on she found Grelich drunk. The probation officer promptly placed Grelich under arrest, steered him to a street car and brought him down town, where he was locked up.

In police court yesterday Grelich pleaded guilty to drunkenness and was given a suspended sentence on condition that he allow Miss Balfour to draw his wages and direct how the money shall be spent.

WALKS MILES TO SAVE TEN CENTS

MARSHFIELD, Wis., Feb. 6.—A suit has been instituted by V. C. Gardner of Pittsboro against the St. Paul railroad. It appears that Gardner refused to pay the extra fare which the company claims shall be collected by all conductors, from passengers who pay fares on trains. Mr. Gardner was put on the train upon his refusing to comply with the conductor's mandate, at Babcock. This is one of the first cases of its kind to determine whether a railroad company is justified in compelling a passenger to pay excess fare on a train.

AGED MAN FACES MURDER CHARGE

Trial for Murder of Wife
Opens at Milwaukee
Today; Pleads Not
Guilty

WAUKESHA, Wis., Feb. 6.—The case against August Hoge, aged 89 years, charged with having murdered his aged wife with a hammer while she slept, came up for trial in circuit court yesterday before Judge Lueck. Juneau, Hoge has been seriously ill at the jail here with pneumonia and for a time it was feared he would not live to face trial.

District Attorney Evans, for the state, and Attorneys Ruben, Milwaukee, and John A. Kelly, Oconomowoc, labored all the afternoon in an attempt to procure a jury. Shortly before 6 o'clock the panel was exhausted, with but eleven men in the box. Judge Lueck ordered thirty veniremen summoned, and the case was adjourned until this morning.

The crime of which he is accused was committed at Oconomowoc on November 14. When arrested Hoge vigorously denied his guilt and has since stuck to his assertion, although he has told conflicting stories as to the occurrence.

TREASURY MAKES \$24,650 ON TAX

MADISON, Wis., Feb. 6.—Another snug sum was added to the state treasury today when representatives of the estate of Mrs. Adela Berry Sloan, deceased, of Lennox, Mass., paid \$24,650. The tax was due on 10,200 shares of Great Northern railway stock owned by Mrs. Sloan. The settlement was made by Deputy Attorney General Russell Jackson for the state, under the compromise statute and was approved by Gov. Mc Govern and the state tax commission.

INDIAN FRAUD IS MADE EASY

Congressional Investigation
Shows How Law Makes
Land Swindle Possible

DETROIT, Minn., Feb. 6.—Here on the edge of the White Earth Indian reservation this morning, men clothed with full power of membership in the Federal congress, listened to the grievances of the Chippewa Indians.

The congressional investigation, adjourned from Minneapolis, convened at 10 o'clock yesterday morning.

A significant statement, indicating a later attack on the Indian lands legislation put through by Senator Clapp, was made just before noon by M. C. Burch, attorney in charge of White Earth matters for the department of justice in Washington. He drew attention to the fact that Senator Clapp's "rider" on the Indian appropriation bill for 1906, commonly known as the "Clapp amendment," provided not only that adult mixed-bloods might, upon sufficient showing that they were competent to make a living. In this way, Mr. Burch said, when agents employed in perpetrating alleged frauds for the Nichols Chisholm Lumber company were unable to persuade a full-blood that he was a mixed-blood, they procured witnesses to declare him competent, and so put through the sale. He referred to Gus Beaulieu by name as one of such agents.

The government attorney holds that Mr. Clapp's legislation could hardly have been worse, so far as the interests of the Indians were concerned.

NOTICE OF MORTGAGE FORECLOSURE SALE.

Notice is hereby given, that heretofore on the 7th day of November, 1902, W. H. Ferris and Christina Ferris, his wife, mortgagors, for value received, and for the purpose of securing the payment of the sum of four hundred dollars, and interest thereon, made, executed and delivered to Bank of Galesville, a corporation organized under the laws of the State of Wisconsin, and doing business at Galesville, Wisconsin, mortgagee, their certain mortgage bearing date on said day, on those certain lands situate in the County of La Crosse, State of Wisconsin, in said mortgage described as follows:

The south half (S. 1/2) of the southeast quarter (S. E. 1/4) of section No. thirty-five (35), in township No. nineteen (19) north, of range No. seven (7) west.

That said mortgage was on the 8th day of December, 1903, at nine o'clock A. M., duly recorded in the office of the Register of Deeds in and for La Crosse County, Wisconsin, in Volume 63 of Mortgages, on page 605, and contained a power of sale in case of default, which said power of sale has become operative by reason of the default of the said mortgagors in failing to comply with the provisions and stipulations of said mortgage.

That the amount claimed to be due for principal and interest on said mortgage at this date is the sum of four hundred sixty-five and 49-100 dollars, together with the sum of fifty dollars attorney's fees stipulated to be paid by said mortgagors in case of foreclosure, and that no action has been commenced for the recovery of the debt secured by said mortgage, or any part thereof.

And further notice is hereby given, that heretofore on the 28th day of April, 1904, said W. H. Ferris and Christina Ferris, his wife, mortgagors, for value received, and for the purpose of securing the payment of the sum of one hundred dollars, and interest thereon, made,

Household Economy

How to Have the Best Cough Syrup and Save \$2, by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add 1/2 pint of warm water and stir about 2 minutes, you have as good syrup as money could buy.

If you will then put 2 1/2 ounces of Pinex (50 cents worth) in a pint bottle, and fill it up with the Sugar Syrup, you will have as much good syrup as you could buy ready made for \$2.50. It keeps perfectly.

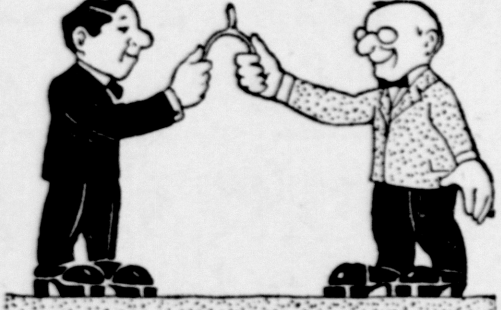

And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a teaspoonful every one, two or three hours.

It is a splendid remedy, too, for whooping cough, croup, hoarseness, asthma, chest pains, etc.

Pinex is the most valuable concentrated compound of Norway white pine extract, rich in guaiacal and all the healing pine elements. No other preparation will work in this formula.

This recipe for making cough remedy with Pinex and Sugar Syrup is now used and prized in thousands of homes in the United States and Canada. The plan has often been imitated but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

TO THE VOTERS OF THE SIXTH JUDICIAL CIRCUIT.

I take this means of announcing to the voters of the Sixth judicial circuit, comprising the counties of Trempealeau, La Crosse, Monroe and Vernon, that I am a non-partisan candidate for the office of circuit judge of said circuit at the election to be held the first Tuesday in April next. Although I have many warm friends among the members of the bar of this circuit, I do not deem it proper to involve myself in this contest or to place myself under special obligation to any of them. For this reason I am departing from the usual custom of having attorneys circulate my papers and shall not ask any of them to sign my nomination papers or to manage my campaign. If elected to this important office, I desire to be free from any alliance or special obligation to attorneys, and to be able to act with entire neutrality as between them. I believe that the citizens of the circuit generally are more vitally interested in the selection of a circuit judge than are the members of the bar and that they are abundantly able to make an intelligent selection of their own.

I respectfully invite an examination of my sixteen years of practice as a lawyer in this circuit and your support at the polls in April if found worthy.

Sincerely yours,

R. S. COWIE.

SYMPTOMS OF THIN BLOOD

How Building Up the Blood Makes Weak, Nervous People Strong and Robust.

Have you ever stopped to consider what is the meaning of the various symptoms from which you are suffering? Certainly the paleness, pain in the back, headaches, loss of appetite, nervousness, shortness of breath must have some one cause. They are not diseases in themselves but are complaints and warnings from the different organs of the body that these organs are not being supplied with pure blood and cannot do their daily work well.

To be in good health a person must always have good, rich blood. Every tissue of the body depends upon it for nourishment and strength. Knowledge of this fact makes possible a direct treatment for the various disorders from which we suffer. You can cure yourself by making the blood pure with Dr. Williams' Pink Pills for Pale People.

Mrs. L. F. Lohrop, of Union street, Stoughton, Mass., says: "No one could have been more benefited by Dr. Williams' Pink Pills for Pale People than I have. I had been treated by many different physicians but without help. My nerves were prostrated. For a long time my back was so weak that I could not get up from my chair. When I got so I could stand up, I was troubled with dizziness. I had to walk very slowly and was in constant fear of falling. My friends thought I was going into consumption. I was emaciated and reduced in weight to 98 pounds. I chanced to read about Dr. Williams' Pink Pills for Pale People and got a box. They helped me and I used them until cured. From a poor, weak, nervous woman, I have become a strong, robust woman. I have had no physician for a number of years. I would recommend Dr. Williams' Pink Pills to anyone suffering from any disease resulting from impoverished blood or weakness from any cause."

Dr. Williams' Pink Pills for Pale People should be used in anemia, chlorosis or green sickness, sick headache, nervousness and for a general run-down condition of the health.

Dr. Williams' Pink Pills are for sale at all druggists, or will be mailed to any address, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

Our new booklet, "Diseases of the Blood," will be sent free on request.

Shocking Sounds

In the earth are sometimes heard before a terrible earthquake, that warn of the coming peril. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape those dangerous maladies, Dropsy, Diabetes or Bright's disease. Take Electric Bitters at once and see backache fly and all your best feelings return. "My son received great benefit from their use for kidney and bladder trouble," writes Peter Bondy, South Rockwood, Mich. "It is certainly a great kidney medicine." Try it. 50 cents at O. T. Erhart.

Bailey said, "Both man and womankind belie their nature when they are not kind." Seems as though the sage got that one twisted.

TASTE SMELL AND HEARING RESTORED

A Simple, Harmless Remedy Quickly Relieves Catarrhal Deafness

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

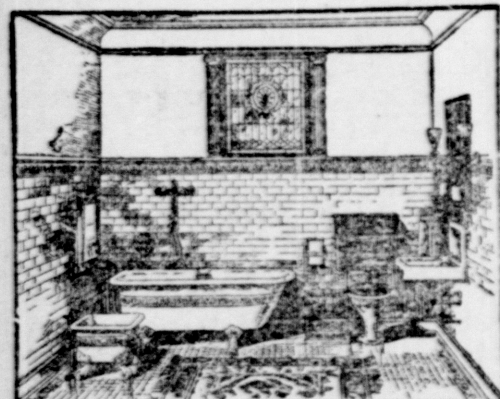

Unlike internal medicines which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, smell and improves the hearing. More than this, it strengthens the weakened and diseased tissues, thus protecting you against a return of the trouble. This remedy will cure a cold in a day, and prevent its becoming chronic or resulting in catarrh.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders which only cause additional irritation. Don't waste time on them. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner.

Mothers should give the children Ely's Cream Balm for colds and croup. It is perfectly harmless, and pleasant to take.

COWIE SAYS HE IS A CANDIDATE

Trempealeau Attorney Seeks to Supplant Judge Higbee on Circuit Bench

Judge Robert S. Cowie, of Whitehall, Trempealeau county, today filed for publication a notice of his candidacy for circuit judge before the non-partisan election next April.

Judge Cowie asserts that he has not circulated a petition among the attorneys because he deems it improper "to involve them in this contest," and because he desires "to be free from any alliance or special obligation to attorneys," and he makes an especial appeal to the voters of the circuit who "are more vitally interested in the selection of a judge than are the lawyers," and who "are abundantly able to make an intelligent selection of their own."

The Whitehall lawyer and politician invites the public to scrutinize his eighteen years' record as a practitioner.

As to his failure to circulate a petition among the lawyers, it is suggested that an additional reason may be found in the fact that an overwhelming majority of the attorneys have signed the petition of E. C. Higbee, the present judge.

statement on best authority today as follows: "As a progressive leader of proved ability, Senator La Follette was drafted as a leader of the fight to be made at Chicago; drafted at a time when the leadership was thought to mean certain defeat. Col. Roosevelt at that time positively eliminated himself from the 1912 fight and his followers for the most part being also sincere admirers of Senator La Follette, pledged themselves to the latter."

"La Follette claims that before consenting to make the fight, he had every assurance from Colonel Roosevelt that the latter would not under any conditions be a candidate in 1912. La Follette started his fight at a time when the prospects for preventing the re-nomination of President Taft were ridiculously small. "As the movement grew and the indications of possible progressive strength developed, the Roosevelt boom was launched. This boom was believed at first by many to be in reality a back fire started by regular republicans to split the progressive movement. The crisis was reached when many of those who pledged themselves to La Follette's support, but who in reality preferred Roosevelt, announced the discovery that La Follette could not win and that the nation was demanding Roosevelt."

Final Break Friday
"The final break came last Friday when La Follette, whose physical condition was that, properly coached, he would never have been allowed to speak, was victimized by his shattered nervous system and committed what even his most loyal friends admit was a grievous political blunder by attacking without discrimination the press of the nation."

FIRE REVEALS PLOT ON PASTOR'S WIFE

FORT WORTH, Texas, Feb. 6.—Investigation today into the fire which destroyed the First Baptist church here yesterday disclosed that Rev. J. Frank Norris, pastor of the church, had received letters threatening him with death and the blowing up of his church. The fire was of incendiary origin, the police assert. The loss will reach \$90,000. Norris led a vice crusade here recently as a fortnight ago an attempt was made to take his life, two shots being fired at him as he sat in his home. The letters found by the police today were written on hotel stationery and unsigned.

SNEAD DEFENSE ALLEGES CONSPIRACY

FORT WORTH, Texas, Feb. 6.—The story of love, conspiracy and death began its unfolding before Judge Swayne in the criminal court here yesterday when the taking of testimony was started in the trial of J. B. Snead. The defense gained an important point through the first witness called, in its attempt to show that Captain A. G. Boyce, who was shot to death by Snead, was in a conspiracy with his son, A. G. Boyce, Jr., to take Snead's wife from him. Edward Cobb of Wichita Falls, testified that the elder Boyce had told different persons that his son and Mrs. Snead would return to Fort Worth together within a month. This was directly after Mrs. Snead disappeared from the sanitarium where she was confined.

Matters of the Memory.
Savages have good memories. They rarely make a false or erroneous motion. They have mastered their surroundings and there are no new things to distract their attention. They keep their memory cells uncrowded. The civilized man is at a great disadvantage. He sees some new thing every hour. His brain cells are a veritable dancing, whirling, seething nest of memories. It is not any great wonder that he cannot recall the one he needs just when he needs it.

INDIANS RECEIVE ALLOTMENT TODAY

250 Winnebago Redskins Are Paid Annual Government Fee in La Crosse Today

Squaws and papooses led by broad shouldered braves are to be seen everywhere in La Crosse today, and the usual collector who makes it a point to be near his friends, the Indian, on allotment day, is also conspicuous.

Just 250 Winnebago Indians drew their allotment of \$23.83 from Special Agent L. M. Compton today and bills aggregating nearly the same amount were presented by scores of collectors for provisions purchased since last allotment day, a year ago. L. M. Compton, superintendent of the Indian school at Tomah, who is also special dispensary agent, today declared that during the last year the Winnebago Indians have made excellent progress in learning the value of money and are daily using their allotment money for more useful purposes.

There are 1,294 Winnebago Indians on record who receive annual allotments from the government, but most of these receive the allotments in other cities.

DAQUERRETYPE COMES BACK

Prints on Silver Are Again Coming Into Fashion, Says a Photographer.

"People are inclined to smile at praise of the daguerreotype of our grand fathers," said a photographer the other day, "but I want to say that the photograph of the present day is no improvement on it for artistic delicacy, for beauty and for quality. In subtlety of likeness, nothing ever has equaled the daguerreotype of seventy years ago, and those who possess any of them should treasure them as the choicest heirlooms."

"Most styles move in cycles, and it is the same with photographs. Many photographers are taking up the daguerreotype again. In view of the advance in photography, it is now possible to make daguerreotypes that are permanent for the originals were wont to fade when exposed to light. That's why they were always put in covered cases."

"There is at least one very good reason for the daguerreotype being better, and that is that there is nothing but the camera lens between the subject and the picture, and the only loss is the reversal of the subject. Another thing is that the highly polished silver plate of the daguerreotype makes possible the greatest amount of detail, and the softer shadings, much of which is lost in photographs today by the rough surface of the emulsion on the negative, by the opaqueness of the glass in printing, and the unevenness of the paper."

SHIPS PREPARE FOR MANEUVERS

To Send War Vessels to the Gulf of Mexico to Be in Readiness for Any Trouble

NO VELVET GLOVE POLICY

United States Refuses to Stand Any Fooling from Maderist Government; to Protect Americans

WASHINGTON, Feb. 6.—With 34,000 troops held in leash by the war department today awaiting only the news of further trouble in Mexico to advance on the Texas border, the navy department began actively to prepare the South Atlantic squadron, now at Guantanamo, Cuba, for "maneuvers" in the Gulf of Mexico. It was stated by navy officials that if possible some of the warships now in Cuban waters will be sent to New Orleans for the "Mardi Gras." From New Orleans the grey ships could be rushed to the coast of Mexico in a few hours.

No Velvet Gloves
Both the army and navy, however, awaited orders from the state department, announcing a recurrence of the outbreak of Juarez. Reports from northern Mexico today continued promising, while southern Mexico appeared in a state of turmoil, approaching civil war. With nearly 1,000 troops already in or ordered to Texas, government officials hoped that no further demonstration of force would be required to awe the Maderist government, but it was emphatically stated that Uncle Sam refuses to be "fooled with," and that the velvet glove will be conspicuously absent in his dealings with the southern republic.

HIGBEE DEMANDS SOME EVIDENCE

sider that it would be cause for their removal, for it would give countenance to the claim that there are class distinctions that should be recognized by courts.

Imputes Dishonesty
If a judge were to tolerate such a suggestion we would no doubt have citizens of foreign birth claiming that their particular nationality is not properly represented, and churches would be claiming that their particular denominations are not sufficiently represented. I can not conceive that any good citizen desires any such conditions of affairs to arise. There was nothing in your first resolution which in my judgment required any consideration except that clause wherein you state that the jury commissioners have "invariably provided names of favored political and business classes." That clause clearly imputes dishonest motives and actions on their part. You have not advanced a scintilla of evidence in support of the truth of the charge. I am convinced that the charge is absolutely without foundation, and so far as I am concerned, the incident is closed unless you present some evidence of wrong doing, and resolutions are not evidence.

Very truly,
(Signed) E. C. HIGBEE.

While La Crosse county is considered progressive in organizing a game and fish association for the protection of game birds and fish information from eastern points shows that that part of the country is far in advance of Wisconsin. The Danbury News of Danbury, Conn., of recent publication contains an article telling of how the people of that district are procuring feed for birds from game warden, as provided by an act of the game and fish commission, which they distribute in places where it will be found by the birds, thus saving them from starvation.

HOW THEY CARE FOR GUESTS

Conveniences of New York Hotels Show Great Consideration Given to Comfort of Ladies.

New York hotels may charge high prices for their restaurant and dining room service, but they are more than generous in some of the conveniences they furnish their women guests. Dressing rooms are equipped with the finest of soaps, the most delicate of toilet powders, ice water, abundance of hand towels of choice linen, hairpins, pins and cold cream, all for the free use of the fair. There are hand mirrors and whisk brooms galore and even hair brushes and combs, if one cares to use them. That nobody ever does is apparent from their impeccable neatness. It is always a neat maid in attendance who will furnish needles and thread for a consideration and even help you with your hair or mend your glove if it has played you false in an hour of need.

In one of the most fashionable of these benevolent hostilities a neat device is well worthy of imitation. It is a small celluloid box or jar with a hole in the cover. The box is filled with fine, white absorbent cotton, which is accessible through the opening. This is to be used in applying powder to the face instead of the customary powder puff. The guest picks out her little piece of cotton, powders her benign countenance and then discards the scrap when she is through with it. The idea is eminently sanitary and shows what careful consideration this hotel gives to every item affecting the welfare of its guests. Above the dressing table is a card bearing the significant inscription, "The conveniences of this room are for the use of paying guests only."

CITY TO SUPPLY ITS ANTI-TOXIN

Diphtheria Cure and Prevention Will Be Ready for Instant Use Day or Night

Anti-toxin by day or anti-toxin by night. It matters not when you call for it. There will always be a supply of it on hand. It can be found by any physician in the city in the office of the board of health during the day or at the police station at night. This was voted at the monthly meeting of the board of health last night. It is planned to have a supply of the diphtheria remedy and preventative on hand for all emergencies. The anti-toxin will be furnished to indigent cases free of charge and it is left to the discretion of the health officers to fix a charge on that which is supplied others. In most cases it is likely that it will be furnished at cost. This plan permits the health officers much more latitude than is the case when the state supplies the anti-toxin. "With the city supplying the anti-toxin, it will do much to prevent diphtheria where it is now neglected on account of the expense of the remedy," said Dr. J. M. Furman, health commissioner, today. "It will prevent many of the secondary cases that are prevalent now. Many persons will be enabled to procure treatment who could not under any other plan. We will be able to buy anti-toxin cheaper on account of the large quantities and for that reason will be able to sell it cheaper. We will also be able to supply indigent cases free of charge."

WAS NO FAULT OF HIS

Pioneer Californian Explains How He Came Into Possession of Gambling House.

When I was in California in the wild and woolly '70's," said the man who is now perfectly respectable, "I was the owner of a gambling house." He allowed one minute and thirty-nine seconds for horror and the expression thereof. Then he resumed: "I assure you that it was through no desire of my own. It came about this way:

"Back in those days people weren't particular in California about the company they kept, so I was thrown in with all sorts of chaps about whom I asked no questions. And one day, when I was seated in a restaurant partaking of supper, one of these casual acquaintances dashed into the place in a violent hurry and cast his eye around till it lighted on me. He rushed over to where I was seated. 'Dave,' he said, 'lend me fifty dollars. I have to leave town—just as quick as I possibly can.'"

"I handed him the money. He seized it and made for the door on the double-quick. On the way he turned. 'You'll never see me again,' he announced. 'I leave you my business in payment of the debt.' He mentioned his business address. 'Run around there after supper and take charge,' he added. With that he vanished."

"Five minutes later a posse arrived, expressing a desire to lynch him. But he had made his getaway. 'Finishing my supper I walked to the address my acquaintance had given me and found that it was—a gambling house.'"

If a hungry man looked at the ocean, would he sea food.

COMMON COUNCIL PROCEEDINGS

La Crosse, Wis., Jan. 2, 1912.

Special meeting, Mayor Dengler presiding.

Present—Bartl, Bedessem, Casberg, Collins, Downs, Gränke, Houska, Kohn, Kroner, Mahoney, Marvin, Neumann, Roellig, F. G. Roth, H. J. Roth, Rybold, Schneberger, Schultz, Smith, Tarbox, Torrance.—21.

Absent, none.

His Honor the Mayor, announced that the meeting was called for the purpose of considering the plans and specifications for the proposed new water plant.

The council then resolved itself into a committee of the whole on motion of Alderman Houska.

After the council reconvened Alderman Houska moved that the plans and specifications for the proposed new water plant be adopted and that the board of public works be instructed to advertise for bids and let a contract.

Alderman Torrance made a motion, which was seconded by Alderman F. G. Roth, that the report of the committee of the whole be made at the next regular meeting, which on call of the roll was lost.

Ayes—Downs, Kohn, F. G. Roth, Rybold, Schneberger, Torrance.—6.

Nays—Bartl, Bedessem, Casberg, Collins, Gränke, Houska, Kroner, Mahoney, Marvin, Neumann, Roellig, H. J. Roth, Schultz, Smith, Tarbox, Torrance.—15.

Alderman Houska offered the following resolution which was adopted on call of the roll.—Ayes, 16; nays, 5.

Kohn, F. G. Roth, Rybold, Schneberger, Torrance voting nay.

RESOLUTION

Resolved, by the Mayor and Common Council that the plans and specifications for the improvement and extension of the water works of the City of La Crosse as read by the Consulting Engineer, Mr. A. T. Maltby, with such changes as were agreed upon by the committee of the whole of the common council be and are hereby approved.

Be it further resolved by the Mayor and Common Council of the City of La Crosse that the board of public works be and they are hereby instructed to advertise for bids in accordance with the charter of the City of La Crosse.

Alderman Mahoney offered the following resolution which was unanimously adopted by viva voce vote.

RESOLUTION

Alderman Schneberger then offered the following ordinance for its reading and final passage and on call of the roll it was passed. Ayes, 14; nays, 7; (Casberg, Kohn, Neumann, Roellig, Schultz, Smith, Tarbox, voting nay).

ORDINANCE NO. 523
An ordinance granting to Saint Francis hospital, a corporation duly organized, existing and doing business under the laws of the State of Wisconsin, certain rights and privileges.

The Common Council of the City of La Crosse do ordain:
Section 1. Permission and authority is hereby granted to the Saint

Francis Hospital, a corporation duly organized, existing and doing business under and by virtue of the laws of the State of Wisconsin, its successors and assigns, to build, construct and maintain an overhead crossing over Market street from St. Francis Hospital to a building on the opposite side northerly from said hospital.

Section 2. Said overhead crossing shall not come closer to the surface of said street as now established than twenty feet and shall in no way be constructed so as to interfere with electric light, telephone or telephone lines which may be on said street.

Provided, however, that if in the construction of said overhead crossing any telegraph, telephone or electric light or trolley wires shall be encountered the course of the same be changed, if in the opinion of the city engineer the same can be done without detriment to the service, thereof or injury or damage thereto, and such change or changes shall be made under the direction and to the satisfaction of the city engineer of the City of La Crosse and at the cost and expense of said Saint Francis Hospital.

Section 3. In the doing of the work necessary to build said overhead crossing or in making any repairs or alterations in the same the said Saint Francis Hospital shall not obstruct or interfere with travel along said Market street more than is actually necessary for such work and shall at all times during such construction keep said Market street in a safe condition and shall erect necessary barriers or overhead covering to protect travellers on said street or abutting thereon from injury or damage by reason of said work.

Section 4. Said Saint Francis Hospital, its successors and assigns shall indemnify and save harmless said City of La Crosse to and from any or all claims, actions or causes of action arising out of injury to persons or property by reason of the construction and maintenance of the said overhead crossing.

Section 5. This ordinance shall be null and void unless the said overhead crossing is completed within one year from date hereof.

Section 6. This ordinance shall take effect and be in force from and after its passage and publication.

Previous to the vote on the ordinance Alderman Schultz moved that the ordinance be re-referred to the committees. The motion on call of the roll was lost.

Ayes:—Bedessem, Casberg, Kohn, Neumann, Roellig, Rybold, Schultz, Smith, Tarbox.—9.

Nays:—Bartl, Collins, Downs, Granke, Houska, Kroner, Mahoney, Marvin, F. G. Roth, H. J. Roth, Schneberger, Torrance.—12.

Alderman Marvin presented a complaint against Edward Almos, who was fined for keeping his saloon open after hours, and asking to show cause why his license should not be revoked. Referred to special liquor license committee.

Alderman Marvin presented a petition from Mary E. Bunce for a refund of the amount of assessment on real estate. Referred to judiciary committee.

Alderman Marvin presented a petition from Henry Benz for refund of amount of over assessment. Referred to judiciary committee.

Alderman Marvin offered a resolution instructing the chief of police to prevent the sale of intoxicating liquors to girls under age, which on call of the roll was referred to the special license committee. Ayes, 13; nays, 8.

Alderman Marvin offered the following resolution which was adopted on call of the roll. Ayes, 19; nays, 2; (Downs and F. G. Roth voting nay).

RESOLUTION
Whereas, it is strictly against Ordinances Nos. 14 and 25 of the City as well as the state law, and whereas, it seems that the police department who are supposed to see that the laws are enforced, do not know that gambling is flourishing in nearly every pool and billiard room, saloon and cigar store, that it is the purpose of this resolution to inform them that such is the case, and

Therefore be it resolved, that it is the sense of this council that the police department strictly enforce and is hereby ordered to do so, these ordinances and that they are not only to cover candy machines, but all other gambling or gambling devices no matter where found.

Alderman Schultz presented the monthly report of the chief of police for the month of December, 1911, which was received and ordered placed on file.

Alderman Schultz presented the annual report of the chief of police for the year, 1911, which was received and ordered placed on file.

Alderman Schultz presented the quarterly report of Police Justice Edward Cronon for the quarter ending December 31, 1911, which was received and ordered placed on file.

Alderman Schultz offered the following resolution, which on call of the roll was unanimously adopted. Ayes, 21; nays, none.

RESOLUTION
Resolved, That the city treasurer is hereby authorized to pay to the city attorney the sum of Fifty dollars (\$50.00), the amount of expense so far incurred by him in the police investigation as per bill attached.

Alderman Schultz presented for its first and second reading an ordinance fixing the amount of the bonds executed to the city of La Crosse by its officers. Referred to ordinance and finance committees.

Alderman Bartl presented a resolution fixing the salary of the health officer. Referred to health and finance committees.

Alderman Bartl offered the following report and resolution which were adopted by viva voce vote.

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committee on health, to whom was referred the communication of the health commissioner and resolution for revoking the license of the city scavenger, beg leave to report that a meeting was called to consider that subject and at the

same time the scavenger, through his attorney, presented his resignation. We recommend that the resignation be accepted.

Respectfully submitted,
JOS. F. BARTL,
H. J. ROTH,
ED. NEUMANN,

Alderman Mahoney presented a proposition from E. D. Loomis to insure the city against accidents. Referred to judiciary and finance committees.

City Attorney Schubert offered the following report and resolution which were unanimously adopted on call of the roll. Ayes, 21; nays, none.

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—Pursuant to a resolution passed by your honorable body on the 8th day of December, A. D. 1911, the undersigned mayor and city clerk advertised for the sale of bonds under Ordinance No. 521 entitled "An ordinance providing for the issue of bonds for the purchase and erection of proposed water mains, reservoirs and pumping station for a public water system in the City of La Crosse." Certain bids were received up to and including the 4th day of January, 1912. The meeting was adjourned until the next day at ten o'clock when bids received from A. B. Leach & Co., Chicago, Ill., Seasongood & Mayer, Cincinnati, O., and the Harris Trust & Savings Bank of Chicago, Ill. Letters were also received from other companies but they did not bid on the bonds.

The best bid made was that of the A. B. Leach & Co., Chicago, Ill. and we recommend that the bid of the A. B. Leach & Co., be accepted. We, therefore, recommend the adoption of the following resolution.

JOHN DENGLE,
Mayor.

E. H. HOFFMAN,
City Clerk.

RESOLUTION
Resolved, by the Mayor and Common Council of the City of La Crosse, that the bid of the A. B. Leach & Co., of Chicago, Ill., for \$250,000 water bonds as provided for in Ordinance No. 521, be, and the same is hereby accepted, and be it further

Resolved, that the mayor and city clerk, be, and they are hereby instructed to sign a contract for the sale of such bonds and take such further steps as are necessary to complete the sale of the same.

His Honor the Mayor offered the following report which was unanimously adopted on call of the roll. Ayes, 21; nays, none.

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committee on special street improvements, to whom was referred the recommendations of the board of public works concerning street improvements for the year 1912, beg leave to report that we have given the said matters careful consideration and recommend that said recommendations be carried out and others rejected.

We hereby submit proper resolutions to commence proceedings on those streets which we believe ought to be improved the coming year. We also recommend that the macadamizing of Vine street from West avenue to Seventeenth street be completed this summer. Resolutions were before the common council at a former meeting but the same was postponed. We now recommend that the final steps be taken concerning that improvement.

Respectfully submitted,
JOHN DENGLE,
JOS. C. HOUSKA,
W. H. TARBOX,
W. P. ROELLIG,
GEO. N. BEDESSEM,
WM. TORRANCE,
Committee on Special Street Improvements.

His Honor the Mayor offered the following resolution which was adopted on call of the roll. Ayes, 19; nays, 2; (Casberg and Roellig voting nay).

Whereas, in the judgment of the common council it is expedient and necessary and for the best interest of the City of La Crosse and for the property affected thereby, that Sixteenth street from Main to Vine street be improved by asphalt macadam and otherwise improving said streets at the expense of the real estate to be benefited, as provided for in Sections 925-172 to Section 925-200 inclusive, of the Wisconsin Statutes of 1898 as amended by Chapter 132 of the Laws of 1899 and all amendments to said Sections, and which said Sections and amendments have been heretofore adopted as an amendment to and in addition to and in lieu of the Special Charter of the City of La Crosse.

Now, therefore be it, Resolved, That the board of Public Works be and hereby is ordered to view the premises and to determine the damages and benefits which will accrue to each parcel of real estate affected by such change or improvement, the entire cost of the contemplated work or improvement upon said portions of said streets, and the amount that should be assessed under the provisions of said Chapter and the amendments to said Chapter, to each parcel of such real estate as benefits or damages accruing thereto by such contemplated work or improvement.

His Honor the Mayor offered the following report and resolution which were adopted on call of the roll. Ayes, 20; nays, 1; (Smith voting nay).

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committee on special street improvements, to whom was referred the resolution calling for the paving of Mill street from Island street to Monitor street with brick, beg leave to report that we recommend the adoption of said resolution provided that the same be amended to read that Mill street from Island street to a point three hundred and twenty-five feet south of the south line of Car street produced east and west.

Respectfully submitted,
JOHN DENGLE,
W. H. TARBOX,
W. P. ROELLIG,
GEO. N. BEDESSEM,
WM. TORRANCE,
JOS. C. HOUSKA,
Committee on Special Street Improvements.

Whereas, in the judgment of the common council it is expedient and necessary and for the best interest of the City of La Crosse and for the property affected thereby, that Mill street from Island street to a point three hundred and twenty-five feet south of the south line of Car street produced east and west be improved by brick paving and otherwise improving said streets at the expense of the real estate to be benefited, as provided for in Sec. 925-172 to section 925-200 inclusive, of the Wisconsin Statutes of 1898 as amended by Chapter 132 of the Laws of 1899 and all amendments to said Sections, and which said Sections and amendments have been heretofore adopted as an amendment to and in addition to and in lieu of the Special Charter of the City of La Crosse.

Now, therefore be it, Resolved, That the board of public works be and hereby is ordered to view the premises and to determine the damages and benefits which will accrue to each parcel of real estate affected by such change or improvement, the entire cost of the contemplated work or improvement upon said portions of said streets, and the amount that should be assessed under the provisions of said Chapter and the amendments to said Chapter, to each parcel of such real estate as benefits or damages accruing thereto by such contemplated work or improvement.

His Honor the Mayor presented a petition from N. C. Bachellor for refund of erroneous tax against lot 7 block 6, St. Paul's addition. Referred to judiciary committee.

Alderman Smith presented a petition from N. C. Bachellor for refund of illegal tax certificates upon a part of Rublee street and a part of South Thirteenth street. Referred to judiciary committee.

Alderman Smith presented a petition from N. C. Bachellor for refund of erroneous tax against lot 7 block 6, St. Paul's addition. Referred to judiciary committee.

Alderman Smith offered the following report which was unanimously adopted by viva voce vote.

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committee on judiciary, to whom was referred three security company bonds given by the Security Savings bank on account of city deposits, beg leave to report that the ordinances seem to exclude security company bonds and we do not think that council can approve these bonds at this time.

The judiciary committee has prepared an ordinance amending the ordinance concerning these bonds so as to permit security company bonds and we would recommend that these bonds be held in abeyance until the adoption of the proposed amendment.

Respectfully submitted,
B. C. SMITH,
PAUL W. MAHONEY,
Judiciary Committee.

Alderman Tarbox offered the following report and resolution which were unanimously adopted on call of the roll. Ayes, 19; nays, none.

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
The undersigned special water committee in accordance with a resolution passed in September, 1911, at the request of the board of public works and city engineer have further considered the plans and specifications for the new water system and have had the consulting engineer rewrite the specifications so as to incorporate all of the changes that

we were authorized and approved by the council at the last meeting when such matter was under consideration, and we have also had the suggestions made by the board of public works so far as applicable and such other matters as advised by the city engineer incorporated in the plans and specifications.

We have further submitted these plans and specifications to a joint meeting of the consulting engineer, A. T. Maltby, the City Engineer, Mr. Bradish, and the board of public works for their final approval and we herewith submit to the council the plans and specifications as finally approved by the special water committee, the consulting engineer, the city engineer and the board of public works.

This committee has endeavored to get into these plans and specifications every safeguard for the city's interest and also to include such suggestions and additions as have been advised by the city engineer and board of public works in addition to the work of the consulting engineer.

We believe the plans and specifications are now complete so far as we are able to make them and we believe that it is urgently necessary that the work be proceeded with and for that purpose we offer the following resolution.

Resolved, by the Mayor and Common Council of the City of La Crosse, that the plans and specifications herewith submitted be approved and placed on file in the office of the board of public works of the City of La Crosse, and be it further

Resolved, that two hundred copies of the same be printed by the official city printer, and be it further

Resolved, that the board of public works immediately advertise for bids and let contracts for doing the work in accordance with the plans and specifications and the city charter, and be it further

Resolved, that it is the sense of this council that separate proposals be received for the whole or any part of said work and that a clause in such advertisement be included reserving the right to select the whole or any part of any bid or proposal, and be it further

Resolved, that the time for opening bids and receiving proposals shall not be later than the first of March, 1912, except as to the opening of bids and letting contracts for the sinking of fifteen ten inch wells which it is hereby recommended shall be let separately and at the earliest possible moment.

Alderman Tarbox offered the following resolution which was adopted on call of the roll. Ayes, 18; nays, none; (Rybold having been excused).

RESOLUTION
Resolved, by the Mayor and Common Council of the City of La Crosse, that an order be drawn on the city treasurer in favor of A. T. Maltby for the sum of One Thousand Dollars as a part payment on his contract.

Alderman Kroner offered the following resolution which was unanimously adopted by viva voce vote.

RESOLUTION
Resolved, by the Mayor and Common Council of the City of La Crosse, that the street and alley committee be, and they are hereby instructed to secure an option on a suitable gravel pit near La Crescent Minn., to furnish material for surfacing the La Crescent highway and also that said committee report at the next meeting of this council an estimate of the cost of resurfacing the said highway with gravel or other suitable material.

Alderman Kroner offered the following report and resolution which were adopted by viva voce vote.

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committee on license to whom was referred the complaint against Edward Almos for selling liquor after 12 o'clock, beg leave to report that we have been informed by the city attorney that the law requires the bringing of parties before the common council when proper complaint is made. We therefore recommend the adoption of the following resolution.

ADAM KRONER,
W. P. ROELLIG,
JOHN F. DOWNS,
License Committee.

Resolved, by the Mayor and Common Council of the City of La Crosse, be and he is hereby instructed to summon Edward Almos to appear before this council on the 31st day of January, 1912 to answer the charges made against him in the complaint brought before this body by M. L. Grant and be it further

Resolved, that the said M. L. Grant be notified that said matter will be taken up and disposed of at said meeting and be present to verify his complaint.

Alderman Mahoney moved that His Honor the Mayor be instructed to call a special meeting to hear the Almos case on Wednesday evening, January 31. Carried by viva voce vote.

Alderman Roellig offered the following report and resolution which were adopted on call of the roll. Ayes, 16; nays, 3; (Kohn, Smith, Tarbox, voting nay).

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committee on grounds and buildings, to whom was referred a resolution for the purchase of six chairs for the office of the mayor beg leave to report that we have examined into this matter and find that the chairs formerly in said office and moved to other parts of the building are not suitable because they do not match the chairs now in the office and recommend that the board of public works be instructed to purchase six other chairs similar to those

now in the mayor's office.

We, therefore, recommend the adoption of the following resolution

W. P. ROELLIG,
OTTO GRANKE,
ADAM KRONER,
Committee on Grounds & Buildings.

Resolved, by the Mayor and Common Council of the City of La Crosse, that the board of public works be and they are hereby authorized to purchase six chairs for the mayor's office similar to those in said office.

Alderman Roellig offered the following resolution which was unanimously adopted by viva voce vote.

Resolved, by the Mayor and Common Council of the City of La Crosse, that the office now used by the park superintendent be given over to the use of the secretary of the board of trade and that the secretary of the board of trade be permitted to occupy the office by the superintendent of parks.

Alderman Roellig presented the report on the first large well in connection with the new water plant as submitted by City Engineer George P. Bradish, which was received and placed on file.

Alderman Neumann offered a resolution providing for brick pavement on Mormon Coulee road between Eighth and Ninth streets. Referred to special street improvement committee.

Alderman Mahoney offered for its first and second reading an ordinance entitled "An ordinance to amend Ordinance No. 401, being an ordinance to provide for the deposit of public funds of the City of La Crosse." Referred to ordinance and judiciary committees.

Alderman Mahoney offered the following resolution which was adopted by viva voce vote.

RESOLUTION
Resolved, by the Mayor and Common Council of the City of La Crosse, that the board of public works and the city engineer be and they are hereby instructed to prepare plans and estimates of suitable market buildings for the north side market and the south side market and submit the same at the next meeting of the council.

On motion of Alderman Tarbox the council went into a committee of the whole to consider the proposal of the La Crosse Bridge & Steel company with reference to repairing West Channel bridge.

When the council reconvened Alderman Smith reported that the committee of the whole recommended that the West Channel bridge matter had been laid over until the special meeting to be held January 31, 1912.

On the motion of Alderman Schneberger the council adjourned.

E. H. HOFFMAN,
City Clerk.

COMMON COUNCIL PROCEEDINGS
La Crosse, Wis., Jan. 18, 1912.
Adjourned regular meeting.

Alderman Smith offered the following report and resolution which were adopted on call of the roll. Ayes, 17; nays, 1; Casberg voting nay. (Mahoney was excused from voting).

To the Honorable Mayor and Common Council of the City of La Crosse.
Gentlemen:—
Your committees on judiciary, finance, parks and park commission, to whom was referred the agreement between the Chicago, Milwaukee & St. Paul Railway company and the City of La Crosse and board of park commissioners with reference to the condemnation of land for park purposes, beg leave to report that we have had this matter under consideration; that the committees at first objected to two or three clauses in this agreement and requested Alderman Paul W. Mahoney to ask the railroad company to make changes. Mr. Mahoney went to Chicago and had a personal interview with General Manager D. L. Bush and the railroad company consented to the changes and the same were made.

Your committee further reports that this agreement was submitted to Geo. H. Gordon who appeared in the condemnation proceedings as attorney for the park commission and hereto attached is

Grain Letter
CHICAGO, Feb. 6.—Prices weakened again in the grain trade here today in spite of bull cable reports. The Liverpool market instead of following yesterday's sharp break here today reported 1/4d lower to 1/4d higher. Firm and higher prices at Buenos Ayres and in the La Platte district controlled the British markets. Here a weakness in corn affected the entire market and wheat futures sold off gradually after a firm opening.

The profit taking campaign in corn was continued today and large commitments of both May and July futures were unloaded on the market. Prices of both May and July broke sharply as a result. A bearish feeling resulted from the announcement of heavy local receipts of corn and the switching of several large traders to the short side.

Oats opened with a weak undertone and following the break in corn there was a rush to sell this cereal. Houses that had for weeks been consistent buyers of oats unloaded today with a declining scale of prices.

Provisions were lower with the market steady. There was a consistent selling policy on the part of many traders but all offerings were quickly covered.

BALMER SPEAKS ON EDUCATION

(Continued from Page 2)

throughout the course by from 1,200 to 1,500 different persons.

"Some of the schools are also offering farmers' schools of one week in which one or two special lines of work are being offered such as corn and soils or poultry and dairying. These one week schools are conducted by the university and accommodate a limited number of farmers from 50 to 100, who will attend regularly throughout the week, not merely to listen to the lectures but to actually do some important things that will help them to improve their farm practices, such as testing seed corn, testing soil for acidity, learn how to keep milk records, how to plan buildings, lay out farms for rotation and other important phases of farm work.

Lantern Slide Lectures

"We have been working out a plan in La Crosse county this year which is meeting with favor and that is holding meetings for the farmers in the country school houses and small

towns in the afternoons and evenings. We go prepared with lantern and lantern slides and try to give each community something in the way of instruction which is connected with its needs.

"As a result of efforts of the school there have been organized two cow testing associations in the county, one of which makes its headquarters at the school. The official tester has thirty herds in his circuit and is able to make one test of each herd each month. There are 556 cows under test. Animals are not only tested for butter fat production but the tester is always glad to help each man in working out rations for the dairy animals meeting the needs of requirement, advising them as to herd management, keeping milk records and in every way possible, helping them to realize greater returns from the herd.

"There has also been organized in La Crosse county an association of farmers known as the La Crosse County Order of the State Experiment association, a branch of the State association. This organization has the especial object of the production and dissemination of improved

strains and varieties of crops and breeds of livestock.

"Only two weeks ago during our farmers' courses a county horse breeders' association was organized which has for its object the improvement of that branch of livestock.

Engineering Work

"One of the instructors in our school having charge of the agricultural engineering work of the school, including blacksmithing and carpentering and who is a very practical workman has been frequently called out by farmers to plan buildings and remodel others where improvements were being made.

"Our schools also own a number of silo forms for building concrete silos which are loaned to the farmers for \$5 per silo and during last summer they were constantly in use up to the time of silo filling and we had many calls for the use of them with which we were unable to comply.

"We are glad also at our school to advise farmers as to the use of fertilizers for their land, to test soil. Last year the school shipped into Onalaska a number of car loads of ground limestone and it was sold to the farmers at cost.

"We are glad to make germination tests of seed corn and other grains or grasses for the farmers, to analyze samples of seeds both for purity and for power of germination also, to identify weed seeds in samples of grain or grasses to determine for the farmer as to whether they are serious farm pests or not.

"Almost every week there are brought to our school samples of cream and milk to be tested for butter fat content.

"Farmers often come to us in person or send inquiries by letter wanting us to help them with some difficulty or to advise them as to better management of their farms.

"And truly these schools are community schools. They should emphasize the phase of agriculture that is dominant in the country or section of the state in which they are located.

"When we have schools everywhere throughout our rural population practically teaching agriculture to country boys and country girls you

need not expect great industrial leaders of our country warning against the mistake centering the activities of our country in the cities and you will not find a country losing its taste for agriculture but a people realizing that the cultivation of the earth is the most important labor of man and know that national strength lies very near the soil."

Recipe for Success.

Keep your head cool—your feet warm—your mind busy. Don't worry over trifles. Plan your work ahead, then stick to it, rain or shine. Don't waste sympathy on yourself. If you are a gem, someone will find you. Don't whine. Tell people you are a failure and they will believe you. Talk and act like a winner, and in time you will become one.—Stephen Harte.

It Certainly Does.

"The aeroplane is in its infancy yet." "Then it's a wonderfully precocious infant." "In what way?" "It's already going the pace that kills."

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

SCOTCH CURLERS BEAT CHICAGO

Travelers from Land o' the

Crack Men with
"Stanes"

CHICAGO, Feb. 6.—In spite of their plea that a succession of banquets had taken the edge off their playing form, the invading Scotch curlers left here today for St. Paul after taking Chicago's most expert curlers into camp by a total score of 141 to 121. Three sets of games were played yesterday. The visitors were victorious in the morning and evening and lost in the afternoon. During both morning and evening sessions they were spurred on to their greatest efforts by Pipe Major Ross who sent the stirring strains of High land tunes over the ice from his bag pipe. When he was absent in the afternoon, the locals won. The visitors won in the morning from the Wanderers' club curlers 51 to 38; lost to the Wanderers in the afternoon, 46 to 43, and won from the Washington park curlers in the evening 47 to 37.

DAVENPORT WILL RUN IN GOTHAM

NEW YORK, Feb. 5.—Ira Davenport of the University of Chicago, considered by many to be the greatest quarter mile runner in the world, will be seen in action in Brooklyn next week, when he will compete in the Suburban quarter mile feature of the games of the Knights of St. Anthony, Feb. 14.

K. O. STARTS TRAINING

CHICAGO, Feb. 6.—George (Knockout) Brown, the local Greek middleweight, who meets Hugo Kelly in a ten round bout at Kenosha Feb. 21, started training here today. Kelly begins his training campaign tomorrow.

RUSHFORD, MINN.

Mr. Ingvald Redalen, the well known buyer of furs, will be in Rushford soon to purchase all kinds of pelts.

The Hart Creamery association held their annual meeting last Saturday, the members being highly pleased with the past year's record. Mr. Conrad Feine is butter maker and has made for the creamery an enviable record. The officers who were elected for the ensuing year are as follows: President, Henry Block; secretary, F. Bunke; treasurer, W. Gahnz; directors, G. Boblitz, C. Brand, F. Oldendorf. The butter hauling was awarded to Mr. Gahnz.

Th one act comedy, "The Fillmore County Fair," will be presented Feb. 13 and 14, by local talent numbering about fifty. Last Tuesday evening the young people were given their parts to rehearse and drilling will commence at once. Rushford possesses some splendid talent in this line and the public may rest assured that they will all sustain the high reputation behind the footlights on this occasion, as heretofore.

A jolly sleighload of young folks braved the severe cold last Friday evening and drove down the river road about four miles to the home of Mr. and Mrs. Johnson, where they were royally entertained.

Charles, the youngest son of Mr. and Mrs. Wm. Blanchfield, narrowly escaped serious injury last Thursday afternoon, when the family driving horse got beyond the young man's control and, with the cutter attached, made a mad dash around several blocks, at last bringing up by the Farmers' elevator, without serious injury to anyone or anything, Master Charles being very gently spilled out when the cutter was overturned in the horse's first attempt to get away.

Mr. McEneaney, a speaker sent out by the Minnesota Anti-Saloon league and billed to speak at Rushford next Sunday, was suddenly stricken with heart failure as he was leaving Duluth last week, dying where he fell upon the floor of the depot. Another able speaker, a Mr. Knowlton, we understand, will fill the engagement at the Presbyterian church next Sunday morning and will speak at Woodman hall Sunday evening, Feb. 11.

The Ladies' Missionary society of the Rushford Presbyterian church will hold their regular meeting at the home of Mrs. George Brunner, two miles north of this city, next Saturday afternoon at 3 o'clock. Business matters pertaining to the work will come up for discussion, the regular topics relating to home and foreign missionary work discussed, after which refreshments will be served.

Mrs. Carl Berg, who lately underwent an operation at a La Crosse hospital for goitre, arrived home Sunday night, and though yet weak is speedily gaining her usual health, for which her many friends are thankful.

Rushfordites were interested to learn this week of the marriage of Mike Monsoor of La Crosse to Miss Swaydan of that city, Sunday afternoon. Mr. Monsoor is a traveling salesman who makes Rushford on his route and by his cordiality and goodfellowship has won many friends here.

WALTER CAMP APPROVES RULES

Says Changes Made in the
Football Laws Were
Necessary; Game to
Be Brilliant

NEW HAVEN, Conn., Feb. 6.—Walter Camp, athletic adviser of Yale, stated last night that he thought the change in the rules made by the football rules committee was the one move that could be taken to make the rules of the game permanent. In speaking of the changes, he said:

"The changes had to be very marked in order that the offensive team be given a better chance. When the game is taken up again the plays will be more brilliant, the scoring will be easier and there will be more running. We have allowed the blocking of the ends going down under a kick. This is an important step. It allows the backfield man taking the catch to make some very pretty plays.

"The increase of the value of a touchdown from five to six points is another step in favor of the twenty-yard zone is, in my mind, a splendid move toward the general simplification of the game.

"The changes were necessarily marked, but they help in the general simplification of the game. We have been hoping each year that rules from the time they were changed would be permanent. With the present changes the game will bring out more running and is generally simplified."

INDIAN RUNNER RIGHT

NEW YORK, Feb. 6.—In a letter to Harry Smith, captain of the Pastime Athletic club, Lewis Tswana, the famous Carlisle Indian runner, says he is getting in perfect condition and will try to lower the world's ten mile record in the Pastime Athletic club games here on February 21. He already holds the record in 54 minutes, 21 1-5 seconds. Among his opponents will be Smith, Mike Ryan, M. Huysman, J. McNamara, Billy Kramer and Louise Scott.

ANTE-SEASON CUB GAMES

CHICAGO, Feb. 6.—Announcement was made today that a game at Springfield, Ohio, on April 9, will be added to the spring training campaign of the Cubs. Dayton, Ohio, has also asked for a game while the New Orleans club has requested that the spring training season be opened with a game there on March 9 instead of the following day.

CHRISTIE TO MEET ZANDERS

MILWAUKEE, Wis., Feb. 6.—Gus Christie of this city has been matched to meet Ernie Zanders of Chicago at Fort Wayne, Ind., February 23. Christie and Zanders have met twice before. The first battle was decided a draw and Zanders was given the decision in the second. They will battle ten rounds at 148 pounds at 3 o'clock.

WESTERN LEAGUE MEETS

CHICAGO, Feb. 6.—Western league magnates began arriving here today for the schedule meeting tomorrow. President Tip O'Neil of the league, asserted today there would be no discord in the meeting and that it would be "all to the harmony."

MULLIN FIRST ON JOB

HOT SPRINGS, Ark., Feb. 6.—George Mullin of the Detroit Tigers, was the first big leaguer to reach "The Springs" and begin training for 1912 ball season.

LOTS OF SOFT, FLUFFY, LUSTROUS HAIR AND NEVER ANY DANDRUFF

You can double the beauty
of your hair in ten minutes
with a little Danderine.

When you see a head of heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, you can at once conclude that this man or woman is using Danderine, because nothing else accomplishes so much for the hair.

Just one application of Knowlton's Danderine will double the beauty of your hair, besides it immediately destroys and dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and

NORMAL MEETS SACRED HEART

With a hard game before them
and with the memory of the Platte
ville game still with them, the mem-
bers of the Normal school basketball
team left this noon for Prairie du
Chien where tonight they will meet
the fast Sacred Heart College team.
As Sacred Heart has already de-
feated Platteville by fourteen or fif-
teen points a victory for the locals
is hoped for in order to put them
again in the running for the state
championship. But the Normalites
are not placing their aspirations too
high and will at any rate endeavor
to hold Sacred Heart to as low a
score as possible. Coach Moore took
with him Capt. Dahl and Bonnevillie,
forwards; Hyde, center; Glassbren-
ner and Byers, guards.

How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome,
but where health is at stake and the
opinion of thousands of reliable people
sifters from yours, prejudice then be-
comes your menace and you ought to
lay it aside. This is said in the inter-
est of people suffering from chronic
constipation, and it is worthy of their
attention.

In the opinion of legions of reliable
American people the most stubborn
constipation imaginable can be cured
by a brief use of Dr. Caldwell's Syrup
Pepsin. You may not have heard of it
before, but do not doubt its merits on
"hat account, or because it has not been
blatantly advertised. It has sold very
successfully on word of mouth recom-
mendation. Parents are giving it to
their children today who were given it
by their parents, and it has been truth-
fully said that more druggists use it
personally in their families than any
other laxative.

Letters recently received from Mr.
E. M. Connelly, Genoa, Ill., Wis.,
and Mrs. E. Bolch, Hatfield, Wis.,
are but a few of thousands show-
ing the esteem in which Dr. Cald-
well's Syrup Pepsin is held. It is mild,
gentle, non-gripping—not violent, like
salts or cathartics. It cures gradually
and pleasantly so that in time nature
again does its own work without out-
side aid. Constipated people owe it to
themselves to use this grand bowel
specific.

Anyone wishing to make a trial of this
remedy before buying it in the regular
way of a druggist at fifty cents or one
dollar a large bottle (family size) can
have a sample bottle sent to the home
free of charge by simply addressing Dr.
W. B. Caldwell, 405 Washington St.,
Monticello, Ill. Your name and address
on a postal card will do.
